BITESIZE APOCALYPSE

This is a genuine ABC production  authored by *Bob Coffey* and may not be reproduced or transmitted in any manner for financial profit

INTRODUCTION 1-4

This is the concluding book of the New Testament and the book that is most challenging of interpretation. Many commentators get into tangles trying to mirror past events of 19 centuries with what is prophesied in chapters 4-19. This is a fruitless endeavour. The book has two rubrics. By the first (Chapters 1-3) it mirrors the grace of our Lord's first coming speaking of the early church and, through that prism, of the entire church age highlighting era traits and affording general instruction. By the second it speaks to the situation appertaining to the Lord's second coming and God's judgment.

The book I have divided into 70 Bites based on my Aramaic commentary whilst holding in tension the seven segments of the "judgment" section and the heavenly perspective spelt out fourteen times in the book so that the church in all ages would understand the fear of God and the utter relevance of the "last days" (where the way we live is all leading) to its message from which we are not entitled to omit "the Rapture" nor "the Millennium" nor "the Tribulation" nor the "Great White Throne Judgment"-in fact abstracting these creates

Irenaeus' opinion was that the book was written during Domitian's rule. Eusebius vacillates between this date in his "History" and that of Nero's reign in his "Demonstrations". The "Crawford Manuscript" Syriac Version was shown by John Gwynn to differ from Harklean Syriac 616. It abounds in Hebraisms and is not at all like a translation from Greek –it even has numerous Aramaic words from the Peshitta OT –circa 425. This MSS may represent the earliest NT documentation in Aramaic going back as early as AD55. The legend of John chasing a disaffected convert on horseback and the spurious revelations of Cerinthus –extant in Nero's time necessitates an early date. Pretty well all Greek MSS copy of Revelation is grammatically flawed whereas Aramaic Crawford MSS replicates none of the flaws strongly suggesting an Aramaic source document

So there are two versions of the Aramaic "Apocalypse of John" that are of great interest. There is the Harklean from 616AD which shows considerable dependence of the Greek and there is the Crawford Manuscript of which John Gwynn writes that it evidences reliance on the Peshitta Old Testament for its quotations and it would appear that this version derives its character from the original early Syriac Apocalypse Manuscript(s). The common view that Paul and John quote the LXX is overdue for a fundamental critique. Rather why should not the quotations from OT sources favour the OT Aramaic language than the Greek since they run along word for word with the Aramaic.

The pseudo apocalypses of Peter, Paul, Thomas, Philip and Cerinthus (so-called) originate from the sub Neronic period or soon thereafter thus rendering it essential that

their model the Apocalypse of John the Divine stem from the day of the Neronic persecution. The comment of Irenaeus(student of Polycarp) that The Apocalypse was written during the Domitian persecution may best be understood as referencing a handing over of this book to his master Polycarp about the time of the death of John. Contextually it appears the temple in Jerusalem was extant during the writing. Historically the incident of John riding to the recovery of young Christian who had become a thief back to the life of faith would not fit the later setting when John was carried around nor would the Cerinthus apocalypse fit a later context for as Sir Isaac Newton says the heretic resisted the apostles 26 years before Nero's time and he died before John.

CHAPTER 1

1 JESUS-JOHN-EPHESUS-CHURCH 1-6 The revelation of Jesus Messiah that God gave him (Jesus) to show to his servants what has been given **YAHIB** [*permitted/conceded*] to be or "take place" by rolling in **B'AGIL** quickly or forthwith and He "made clear" "signified" "symbolized" "prefigured" also "chronicled" [**SHO'DAL** *Shaphel of YADAL*] when He sent by the hand of His angel to His servant John. *The "showing" is as much annals as image. Smith esp. "to prefigure/symbolize /typify"*

He who witnessed the word of God and the evidence/testimony of Jesus Messiah –all "whatever" he saw (in vision). His blessing to whoever reads studies or proclaims **QARA** to those who listen to the words of this prophecy and keep or guard those things written in it for the time is near. John to the seven assemblies which are in Asia grace **TIBUTHA** to you and peace **from Him** who is and who has been "is" and is coming-from the seven Spirits who are before His throne. C. C .Torrey noted that the Greek here has **APO** with the nominative. *The seven Spirits bring that one same grace as the one on the throne sends.* **And From** Jesus (a)Messiah and(b) trustworthy witness and(c) firstborn **BOKARA** of the dead or those to die (d) and the ruler of the kings of the earth; (e) He who continues loving us (f) and has unbound us from the bondage of our sins by His blood. He has made us a priestly kingdom to Eloha and His father and to Him be glory and sovereign power to hold and keep to the eternity of eternities –Amen.

2 PATMOS -CHRIST SUFFERS WITH HIS PEOPLE 7-12 Behold He comes with clouds [*Dan7.13 & Zech. 12.10-apparently "clouds of angels"*]and every eye shall see Him and also those who pierced Him through shall mourn over Him-all the families of the earth Yes and Amen. *It appears quite incredible that the Roman soldiers who pierced the Lord should so mourn at some future date-even more fantastic that the whole earth should mourn NARKADAN but that is what God says. The prophecy first states He shall hold eternal power and then it says He shall find the world sorrowing-it is even more far-reaching-"all generations, ranks and families"*.

I am Alap and Tau [*Greek Vaticanus, Sinaiticus, Alexandrinus, Coridethi and Leningrad manuscripts all have ALEPH spelt out and OMEGA as Ω. Actually ALAP-TAU written close together in Aramaic looks exactly like omega in Greek*]says Maryah Eloha -He was is and has been "is" and is coming-He who is sovereign holding all. [*Greek PANTOCRATOR*].

I John am your brother and son of your companion in suffering and in the patience which is in Jesus . I was in the island called Patmos [*Possibly “enriched with blessing” Aramaic – about 8miles long by 4 wide*]because of the word of God and because of the testimony of Jesus the Messiah. *Throughout John affirms Jesus is King and that despite his suffering under Nero.*

And I was in the spirit in the first day after the seventh **YOMA D’HAD’D’BSHABA** and I heard behind me a great voice exactly like a trumpet.[*the Greek “Lord’s day” is a new-spun phrase of the Greek text*] which said “Those things you have seen write in a book and send it to the seven church assemblies –to Ephesus Smyrna, Pergamos, Thyatira, Sardis, Philadelphia and Laodicea..

12 And I turned or moved around **HAPATZ** to actively know the voice whosoever(it was) that spoke with me and when I turned another way or turned again **ATAPATH** I saw seven menorahs of gold. *Only the Aramaic indicates the double turn.-the Greek has επιστρέφω for both verbs. The point is that John turned one way and then another. He appears to have mistaken the direction or did he get it right and the Lord was making something else in the vision more significant-the sight was now more than the sound-the candlesticks had unrivalled attention.*

3 THE VISION OF THE LORD 13-2013 And in the midst of the **MENORATHA** exactly the likeness of the Son of Man and clothed in an Ephod and girded around His chest or paps with a golden binding or belt. *The Harklean Syriac has PAWDARA*

14 Conversely His head and his hair was white exactly like wool and like snow and His eyes were exactly like flames [**SHALHABITA** –*an Akkadian root meaning “caused by fire*] of fire. *The comparisons bring to mind the elements-snow and fire and also wool of the lamb. Perhaps the whiteness was most startling but His eyes were deeply penetrating and strong.*

15 And His feet were in the likeness or image of brass of Lebanon which is made hot in a furnace and his voice exactly as the sound of many waters. *John was secondly impressed by His feet which were as brass - NEHESHA reminds us of the fiery serpent of Moses and so of the Christ presented by the church as crucified for our sins. The voice is not now as a trumpet but as cascading waters. The former is a war call-the latter is such a welcome idea on an island dependent on rain water. Patmos has no water at all. As I discovered on visiting it for a week it depends on roof level storage of the little rainfall ther is and on water imported by ship from Greece. The wonder is that Christ has in the church context the means to bring hope to those who thirst.*

16 And there exists in His hand on the right seven stars and from His mouth a sharp spear or lance **ROMKHA** and I saw Him exactly as the sun appears in its power. *The comparison with Paul is plain-the absolute glory of Christ is such that one can anticipate what comes next-as it was with Paul it is with John-he cannot*

stand and look at Christ. The word shines in His mouth as a lance and the person of Christ blazes in effulgence of glory as the sun at its height.

17 And when I saw Him I fell at His feet as dead and He laid his right hand on me saying “Do not dread for I am alive –the Frist and the Last. *Christ instituted the church and Christ will bring this age to completion-those two eras are covered by the Apocalypse. The Lord emphasizes this in 1.11,1.17,2.8 & 22.13 –four times.*

18 And I am he who lived and was dead and behold I am alive for ever and ever and truly mine is the key of Death and Sheol.

19 Therefore write whatever you have seen and those things that are and are coming to be after these things. *The Lord wished the world to know of His beginnings in the gospel and His conclusions as the judge of all.*

20 The mystery of those seven stars that you saw on or over my right hand and the seven menorahs –the seven stars are **messengers** of the seven assemblies and the seven menorahs of gold which you saw are the seven **churches**. *The hand of the Lord holds the messengers and the churches are each one a menorah in the sense that each has the sevenfold Spirit of God amongst them.*

CHAPTER 2

CHURCH HISTORY-THE ERA OF GRACE INSTITUTED AT CHRISTS FIRST COMING

(Each church prefigures a slice of church history until the rapture whilst detailing ostensibly the first century Asia Minor Church story

4 EPHESUS(1-4)

And to the messenger who is in the assembly of Ephesus write: “Thus says He who holds the seven stars in His hand-He who actively walks amid or as mediator within the gold menorahs.” I know your works of service and your suffering of hardship and your expectant endurance **SIBARNOTHA** and that you are not able to tolerate or endure **MATA** evil ones and you have tested those who say that they are of the apostles and are not and you have found them frauds.

And you have expectant endurance **SIBARNOTHA** and have endured as a standard bearer TUA because of my name and you have not wearied **LAITH**. *With expectation-with arms held high-with un-wearying prayer-like Moses in the battle with Amalek the early church persevered.*

But **this is the existing reality for me**-you have left aside **SHABAQ** or let it die the earlier “**fiercely burning fire of love**” **HOBAN**. “*Why let the love burn out?*” Remember exactly from where you have come and serve the earlier works but if **ANADIN** not I will come upon you and move or shake your menorah unless you turn in repentance. Prophetic indeed-the wipe out of Christian witness where more than 1000 churches bore testimony became a reality. But **this single thing is yours** that you hate the work of the Nicolaitanes-those which I hate-I do. *The group in question appear to be a politicized group which prejudiced their faith to their*

politics. He who has ears let him hear what the Spirit is actively saying to the assemblies and **to him who is victor** or conqueror I shall give to eat from the tree (or cross) **QISA** of life that is in the Paradise of God. *The word QISA In Aramaic means both “tree” and “cross”. The “existence” of such a tree in paradise has been a long- term conundrum of theology. By the river of life in Paradise the Christ of Calvary beautifies the heavenly landscape.* **The apostolic church of the early centuries is represented among the candlesticks. It's love cooled wherever it submitted to the Caesar cultus or Gnosticism**

5 SMYRNA 8-11

This section of the Apocalypse is cogent to the pen-ultimate development of government on earth-the little horn-the antichrist-the beast -the ephemeral empire-Rome re-divivus –an imposter empire in the making which emerges in the post-rapture scene to bewitch the world. This critical central section of the commentary sets alongside one another (a)21st century developments that fit like the first jigsaw pieces contributing to the big picture of the grand finale events of the halcyon inter-stich of *human government* recorded in this prophecy. Fear not the things you are about to suffer. Look the accuser is ready to throw some in prison to test you, and you will have tribulation 10 days. Be faithful to death – I will give you the crown of life. Citizens were required to sprinkle incense on the fire that burned before the statue of Tiberius. They were persecuted for failure to conform

Historic persecutions:

Nero 64-8 Paul beheaded; Domitian 95-96 John Exiled ; Trajan 104-117 Ignatius burned at the stake; Hadrian 117-138 Clement of Rome executed; Marcus Aurelius 161-180 Polycarp martyred; Severus 200-211 Empire wide martyrs; Maximinius 235-7 Christian leaders killed; Decius 250-253 A Severe persecution; Valerian 257-260 Bishops Pion and Camprian martyred; Diocletian 303-313 Attempt to extermination of Christians. **In the mystery of the candlesticks this church represents three centuries following the apostolic era up until Constantinian times when it politicised.**

6 PERGAMUM 12-17

The church in this era faced “wipe-out” in North Africa and the mighty sweep of Muslim armies in the mystery candlestick story. The last form of Antichrist is a short post -rapture tribulation rule of the little horn-the antichrist-the beast -the ephemeral beast /empire ‘out of the sea” but the long build-up reaches from what Daniel terms the antichrist “sitting where he ought not to sit” in the Jerusalem sacrum to the “throne of Satan & the beast”. The modern equivalent moves through germinal events of the 7th century AD to the Ottoman empire, the Turkish state, the third Reich and Rosh in the progress of this mystery.

The city was amongst the first to yield to Rome. When Alexandria withheld papyrus the city developed *Pergamini parchment*. Famed for the Aesclepius’ temple erected to the god of healing with the entwined serpent on a staff as its

insignia. Alexander defeated Darius II and his empire subsequently fell to four generals ruling Greece, Turkey, Syria & Egypt. From one of these according to Daniel 8.8 comes the “little horn”.

The Lord refers here to “the throne of Satan” which links with the altar of Zeus. In 1871 a German engineer found fragments from the altar and afterwards recovered many more. It was reconstructed in Berlin. Satan worship began in Babel under Nimrod & Semiramis. This altar-throne of Zeus (*god of this world*) had in the Roman Caesars “high priests” of the cultus which itself originated in Babel. The altar was located in Germany during the slaughter of 6million Jews and went to Moscow during the cold war. The Turkish people want it back!

As the Lord honours the martyred Antipas (“*a man against the world*”) and like the 7th century church in North Africa, and in the Third Reich the last assimilated church will exist solely by virtue of its martyrs.

7 THYATIRA 18-29

The town of Lydia cf. Acts 16.14. As a trader she was a compulsory member of a trade guild and worshipper of Apollo. The town once called “Semiramis” was renamed by Seleucus I. It was home to linen, woolen garments, leather, pottery, copper and brassware. **The church was loving but undisciplined.** Bill Freely in his useful commentary “*Survival*” calls it the 5-star church. In the church a prophetess akin to the Old Testament Jezebel wielded a corrupting influence. On our visit at the end of the last century we heard of just 2 or 3 believers on *Akhisar*-modern Thyatira. To this careless church our Lord appears with flaming eyes and feet as shining frankincense (a deep bronze hue (like that I bought at a Petra hotel where I stayed with a group of Baptist ministers in the mid-nineties).

The significance of the colour is that Jesus presents as conqueror of the Sun-god. The church was known for deeds of love faith and service and for its perseverance. It was moving ahead and rising to its opportunities. In the candlestick mystery of the church the metaphor of Jezebel rings true for corruption, inquisition, and persecution of prophetic and biblical heralds marked the age which climaxed with the appearance of the **Albigenses and Waldenses and Wyclif. Whilst he was called “the morning star” of the Reformation-our Lord reserves to Himself the title “The bright and morning star”.** **From the 1300’s onward the Sovereignty of Christ in salvation began to conquer minds all over Europe as Our Lord walked among the candlesticks to keep the flame of faith burning.**

CHAPTER 3

8 SARDIS 1-6 Alive but really dead v.1 **The Lord now speaks to Sardis.** The capitol of Lydia symbolized by the transparent red female stone and the brown onyx male stone. The stones were used in seal rings. The Lord prefaces by saying the Seven spirits of God exist within His being. His Holy Spirit is sevenfold- wind or birth, wisdom, understanding, counsel, might, knowledge,

awe. He knows the stars by name but the church appears alive but is really dead. It has a name or reputation but the life thereof is wanting. Their works were not **SHAMAL** “fulfilling promise” “complete” “thorough” in the presence of God. **ATHA GANABA** ...how I will come as a thief v.3. The sudden joy of the Holy Spirit was a good beginning but the surprise of the thief would be a sad ending. IN WHITE v.4 **KHORA**. It is so vital to clothe service in a garment of white even whilst indulging humbly in service that soils both hands and apron. What then is this **KHORA**? This whiteness? This “sort of “**HACANAH** service as the Lord puts it? It is “like” service! But what is it like? It is being ready at any hour for the master. It is being separated to the will of God. HOLINESS is the key to service. “Holiness in working clothes”-Stan Banks.

LEHA SHEMA I will not blot out his name—God does blot out His servants’ names from the book that ensures continued life. The corollary is “others yes!” **The Reformation church –defying a moribund medieval establishment prophesied in the mystery of the Lord among the candlesticks. The “red” stone gem represents the work of Christ the only Mediator and Priest whose sovereignty this church honoured.**

9 PHILADELPHIA 7-12 THE KEY v.7 QALIDA Christ terms him the “holy One” as in Isaiah 6 and the “real” one who had the key of the David. Ancient keys were very large –more like spades than keys and could be carried on the shoulder. The herald and many prophets proclaimed the kingdom but only the redeemer could open it to the whole world and unlock hearts and free them from their sin. Philadelphia is the centre of a volcanic region – not far from the Turkish *Olympus* on the slopes of which my wife and I drank a welcome cup of tea brewed over burning gas leaking from the mountain.

The Philadelphian church had little “clout” or political power but great blessing. Through the work of the Spirit it developed fellowship. This in the mystery of the lampstands represents the Post Reformation Church in mission re-evangelised the world enjoying an open door to many lands and was significantly sustained free from earlier trials ATARACH MIN ASIUNA I will keep you from the trial].The “bowing at the feet” of Jews suggests that it begins afresh the work of reaching Israel

10 LAODICEA 14-22 v.14 MEHIMANA “Thus says the faithful one to the angel of Laodicea”. For Laodicea it was vital to know that God is “faithful” **MEHIMANA** and that He is affirmed in heaven and earth –the “AMEN” and that he is “real” **SHARIRA** and that he is the source **RASHITHA**. Laodicea was destroyed in AD 66 and totally rebuilt under Aurelius 120 years (188-217) though Hadrian revived it after a visit in 117-138 (Tacitus). This pins the Apocalypse to the seventh decade of the first century and scotches the notion of a turn of the century dating.

PASHORA “LUKEWARM”. The Christians were neither **QARIRA**(cold) nor **HAMIMA** (hot) in works so the Lord would vomit them THOB from His mouth. The action is one anticipated but written in the Hithpael so “future perfect action”. The water that ran several miles from Pammukale began hot and chill in two rivulets. Both for different reasons were tepid on arrival at Laodicea. Lukewarm signals “disengaged” “going nowhere”. They are like unpalatable food or even poison. **SANIQ** They profess to have no “pressing” or “compelling” need. Though “sick” **HILA** and “debilitated” **RAWIA** or weakened and “impoverished” **SACAN** and “stript” **ARTAL** and naked. The reference to “blind” is missing from Revelation. Laodicea was a centre of “eye ointment” treatment so that omission is important. The city did profess to be able without outside help to rebuild as one understands. **Wealth and pride marks the first & last age of Christendom and this church The mystery of the candlesticks is set to straddle the tribulation and vain professors are set to hear the Lord’s “I never knew you” .**

CHAPTER 4

The second section of the Book begins with one of the 9 parentheses that give us heavenly vistas to accompany the earthly vision. In this initial parenthesis we get a view of the overwhelming glory and praise of heaven-the power that is there and the honour and how these were traded in at the incarnation and bought back at Calvary.

11 SEQUENCE(1) AND PARENTHESIS(1) 4.1-6.17 v.1 MIN HALIN “AFTER THESE THINGS” After the church era envisioned John is called home figuratively as the church’s representative. He was to “come up here” to heaven from where God would from the very throne make visible and clear the hereafter. **TARA’A** v.1 John stood at a “gate” or ingress into heaven itself. **AIK** v.3The “likeness” and “look” of the one on the throne was as red jasper and red & white carnelian. The stone comparison is not gratuitous because Christ is the High Priest and he is likened to igneous rock that endures the fire of sacrifice. The surrounds of the throne is described like the sky-with clouds and a rainbow. The throne is besieged by clouds of saints and the saints are in the company of a rainbow representing promise and life. Noah’s bow promised no more flood. This bow promises no more death. It represents life in all its colour. **KHORA** v.4“white” The elders were clothed in white or silver or wool like robes. I would choose *white* as it represents their priesthood. Everyone is brighter than Caesar who controlled the religion of Rome. The elders had crowns of gold on their heads. The ministry of prayer and rule was graciously shared by the sovereign Lord on the throne but watch what follows in v.10 for these highly favoured elders are not proud-they regularly forsake their thrones and set aside their crowns. **QALA** v.5 “cries” or “hymns” From the throne **issue** a serried army of loud thunders and lightning streaks and hymns. **NAHIRA** “lamps”

Seven luminaries in fervent conflagration-the seven spirits of God are in the presence belonging to the throne. **ZAGOGLITHA** v.6 “glass” -All is known and transparent in the presence of God. It is like ice and in the midst of the throne where the Lamb is and besieging it around **HADAR** are four living creatures full of eyes before and behind who have understanding of past and of the future. **ARIA** v.7 “lion”; **AGALA** “calf”; **BARNESHA** “Son of Man”; **NESHA** “eagle” There can be no doubt but that these four seraphs represent the one on the throne who is all of these in one. He rules without rival, He was slain as the only redeemer, He became man and on our behalf lived and modeled life as it can be under the Spirit of God and He rose again and rules from the throne. GA v.8 “within the body” **TAPARIA** “below” From below and the feet and turning around the head there were six wings revolving –and there was no retirement or silence or “hermit life” **SHALIHA** and they recited day and night **HOLY, HOLY, HOLY MARYA ELOHA WHO HOLDS EVERYTHING –WHO WAS AND IS AND IS TO COME. AMIN** v.9 “habitually” When the four living creatures offer devotion in **Songs of Glory** and giving **honour for the burden borne** and **thanksgiving for grace** to Him who sits on the throne and to Him who lives forever they do it habitually-over and over.

DAMA v.10 “lay down” The elders do not cast their crowns down so much as gently lay them as hugely appreciated honour at the feet of Jesus. They dismount from their thrones so to do. This they do habitually as the living creatures lead worship. The word “cast” is reflexive not *Aphel* so it tells of a humble reverent act. **LEMASAB** v.11 “to receive” or “to trade” Glory honour and power. In His incarnation our Lord left aside glory honour and power and in his cross and resurrection with His ascension He received it again. Thus He is the more glorious because He was willing so to trade what He was for the joy that lay before Him.

CHAPTER 5

12 PARENTHESIS(2) 5.1-14 v.1 GO BAR “Inside...and outside” The scroll on the Lord’s right hand was immersed, imbued, engraved or characterized by its seven seals **TABIA**. No other book was so significant –no other carried the will of Christ for the final years before his rule and for his rule and renewal of all things. Within its body were further seals –John knew that when they were opened as the book was previewed. The impress of His character was everywhere in the book.

SHARA v.2 “To untie or solve the difficulty or render the riddle. An unnamed warring or mighty angel –a different one- **heralded** “Who is worthy?” with the conviction of a gospel preacher who knew the worth of Christ.

MAZA v.3 And there was not any “to give blood” in the three realms of heaven earth or hell who offered or dared to open the seals. None had the power or ability in spiritual warfare like Jesus. The word **MAZA** plus **KOL** means “All powerful”. It bears thinking about that not even Satan would answer. The word

has a kindred meaning *“Opening with the will to give one’s lifeblood”*. No angel could become human. No demon including Satan could conquer all the realms as ruler of each in turn. Ultimately the covenant love provision of the Lamb of God is the glory of the universe.

LITH SHACAH v.4“not...found” John wept inconsolably because no-one was found strong enough for the task of controlling the ultimate history of the world. The word “found” can mean re-discovered. Somehow even heaven seemed to have lost the Saviour-the Pantocrator of victory. Yet was the angel confident of his message gaining an answer. The 24 elders were equally sure and one of them (v.5) represented to John their confident answer. “The lion from Judah-the root of David” has prevailed **ZACA** has shown He has the right- He is pronounced innocent. Ultimately “justification” involves peerless worth and this was tested as the elders knew in the long promised redemptive love and absolute justice of Christ demonstrated in all realms. An angel could pose the question-an elder could affirmatively answer the question. We know the glory of the Grace of God.

AMARA v6“A lamb”(28mentions in Ar. 29 in Gk.) Right at the heart of everything in heaven was the “Lamb” that was exactly like it had been slain and risen. John recognized Jesus immediately as the one who was crucified or slain **NACAS** for Passover and risen or was standing. The seven Spirits of God referred to as burning lights or candelabra of glory in 4.5 are now characterized as horns and eyes **commissioned** throughout the entire earth. The cornea of the eye is the “horn” and the fact is the Lamb sees the earth in veriest detail.

BESEMA v8 “spices”- When the Lamb took the scroll from the hand of Eloha who sat on the throne the 24 elders worshipped the Lamb. Each was given a Zither or stringed instrument and a golden vessel. The first needs no explanation- they were to lead praise. The vessel containing perfume or incense shows they were to lead and present the prayer of the saints.

SHABOTHA ZEBANTHA v.9“A Song ... You redeemed us”. The saints here appearing are glorifying Christ after the decisive operation of the eyes of God in the entire earth watching over and drawing his own to glory. They join in the heavenly song exalting the Redeemer who bought them to be God’s from every “tribe” or “family” **SHABOTHA** and from every “nation” or “people” ‘ATH and from “every city” or “metropolis” **AM**

ANON “Them” You have redeemed us and You have made them a kingdom of priests and kings to our God and they shall reign over the earth.

RAB v.11“Ten thousand” These are the biggest numbers in any ancient volume or book-noting billions and millions of saints. The number of “being” or of existence for all eternity was firming and stretched into billions and millions but its added millions would yet receive a fillip from the millennial era-such is the glory of the cross and such the redeemed of the Lord. This host presents subsequent to the rapture before the golden era on the earth.

MASAB v.12 “To receive” Worthy is the Lamb to *take in marriage* and to *trade* and have acquired by redemptive action ALL “power and wealth and wisdom and strength and honour and glory and blessing”. From the embers of the old world this is what is salvaged in the lives of the redeemed. First of all there is the power that is spiritual and mighty through God and finally there is great happiness and in between there is a wealth of talent and a reservoir of wisdom and double strength of intertwined myriads and honour or weight of character and glory fetched from all nations and reflecting His own.

BARITHA v.13 “Every one that had been created” All in heaven and below the earth and in the sea (but not the demons) I heard saying “Blessing honour glory dominion” to Him that sits on the throne and the Lamb.” To this the four living beings said “Amen” and the 24 elders worshipped. These latter represented all heaven and earth.

CHAPTER 6

13 FIRST SEAL 1-3 *FIRST The seven seals are opened by the Lamb and beings that may have accompanied the Almighty from immemorial time and be among the first He ever made join in His express will for the completion of history. Among them the other voice (of the Lamb) will define more precisely detail as under the third seal.*

QASHTHA v.2 “A bow” Whilst there were “gifts” or “permissions” given to the horses and riders they were notable trading rights **YAHAB** to be recovered duly and supervised as well. The Aramaic has no “and see” in each instance- i.e. but it records that John “saw” or gained the prophetic vision which we too need. One of the four living creatures-a Cherub- spoke in a resounding manner – indignant on heavens behalf. The seal **TABA** is indicative of the will of God and has the impress of His character on it-in love He hides-in grace He reveals-in power and wisdom He orders whatever comes to pass. The white horse is simply a sign of victory and its rider had a turban **KALIT** which indicates he is a leader of the east and his bow further strongly suggests he represents the eastern horsemen-the Persians who could shoot from an inverted position whilst mounted. He conquers (intensive) and was conquering and set to achieve victory. In the Tribulation period Persia will figure and the turban will indicate power and the East will be renascent.

14 SECOND SEAL 4 HARABA RABATHA “A great sword” The second seal will be under the careful eye of the second Living One or Cherub. The rider the Cherub demonstrates takes peace which is like a wife away **MASAB** from the earth. The “sword” he held “killed suddenly” **KHADDA** or “simultaneously”-it may indeed mean “one by one” and each method may be used. The use of horrific weapons and the use of the “sword”-the scimitar type sword is not unlikely. Currently the latter is used for ritual slaying of infidels. In this case the horse is “red” signifying curiously both “death” and “disguise”.

15 THIRD SEAL 5-7 v.5 MAASTHA “balances” These balances speak of the weight of foodstuffs and also of debts. The rider on the black horse would appear to have influence over provisions and over debts. Most interestingly there is a more precise voice that knows the entire future –from the midst of the living creatures which says “two quarts of wheat for a denarius and three “two quart” measures of barley for a denarius(days wages) and you shall not exempt from tax the oil and wine. Thus we enter a world of high tariffs and one where cereals are in short supply. This especial note re the last seven years before Christ is very instructive especially as we move toward that very era.

16 FOURTH SEAL 8 SHOLTANA “autocratic sultan power” The fourth seal was accompanied by a voice of “a living one” and it allows the rider “unrivalled authority” over one quarter of the earth to the rider of the “pale” horse –one greenish yellow or pallid –“lizard –like”. He will have power to kill by “starvation” and “brutal animals” **KAPANA** and **HIOHTA**. This calamity appears to be a natural but tragic consequence of no positive capability to counter these dangers in a quarter of the globe.

17 FIFTH SEAL 9-11LETHHATH MADEBHAH “The altar beneath” When the fifth seal was opened the immediate view of souls or lives slain for the faith of Jesus was there. Their faithfulness to the word of God and their testimony- the testimony of Jesus led to their death. They called with a great voice and recited “Until when Maryah(Lord) holy and truly real do you not judge and **enquire about** or require our blood **B’AA** from the settlers of the earth. This cry is another **SEBAQTHANI** a “Why do you not act O Lord?” **ASTALA HORATHA** v.11 “A white robe”. Like the Greek “stole” means a garment of significance or robe of those who had been recognized. Along with the robe the Lord told them they should rest. This appears to signify that their prayer was understood-yet their companions **CANOTHA** “equals” “colleagues” and brothers would still suffer but the time factor was curtailed-“a little season” The word **ADAN** is used of “dawn” and of “the hour” and this is precisely related to the crucifixion-the hour at which one is aghast-the daybreak that heralds the end at the ninth hour –the hour of prayer and prayer answered! All earth’s latest righteous suffering is incorporate in the cross where its rationale is found.

18 SIXTH SEAL 12-17 v.12 SAQA DASARA “sackcloth of hair”. The sun which as a golden ball has governed the day since Adam first set eyes on it less than 7000 years ago under this “timed” seal or will of God became black as “sacking” or goats’ hair cloth from which eastern tents were made. *The “glowing” heat of the sun is not necessarily less than the black heat. It is not necessarily the earth’s atmosphere that is John’s vantage point but the heavens.*

And the whole moon was **exactly as blood** or alike and an imitation **LEH ICH DAMA** –The word “**blood**” **DAM** means “red” whereas the word “akin” means as sackcloth. The imitation and comparison between the two is missing and the difference is not just one of interpretation for if the sun is substantially and actually changed so is the moon but if the atmosphere only is changed then the moon may become “red”. The crux is the “earthquake”. Did this **NOD** “**staggering**” and rolling of the earth like a ship on the sea-this wholesale shaking of the earth result from an earth-based incident or from a change in the sun? **COCBA** v.13 “stars” The fact that stars fall seems not just a case of a “meteorite shower” –a superficial routine annual event but something vastly more serious. The options are “a meteor shower” “a fall of stars above the earth” or even a collapse of “artificial satellites”. There is an exact comparison given-that of figs blown down by a strong wind. The “trembling” or “**shaking**” **ZIA** is again either a *shifting of the entire heavens* or a shaking affecting the earth in a nuclear manner. We have to look at the third effect of this sixth seal for a full exposition. **SHIMYA CIRCAN** v.14 “The heavens were parted and rolled” like a scroll. I take it that the action is a moving of the heavens as a whole and the rolling away of a section from sight. This action does not destroy the scroll nor need it do the heavens-it is used of the persons of the trinity and of the legs of a horseman. It does demonstrate however a new configuration and when taken with the “movement” **ZIA** of every mountain and island from their locus or spot it signifies a change in the geography of the earth which could only be instigated by a nuclear exchange of a wholesale order or more proficiently by a great sea-saw movement of the earth itself in the heavenly structure.

TASHAN v.15 “Conceal”. The huge numbers and diversity of those who sought refuge bears conviction that an event foreseen or foreseeable was in course of unraveling before the watchers-the “kings, princes, captains of thousands, the rich, the powerful, every employed worker, and the freemen of the time. Thus the whole idea of authority and warfare and work schemes went out the window and very life itself was imperiled so humanity fled to the hills. There is even more-this is seen as a divine intervention. It is recognized as the “day of their wrath” **YOMA RABA ROGAZTHON**. The “faces of the Lamb” involved the Lord and the Cherubim who are associated with His wrath. The earthly awareness of what is going on has to involve a deep and sudden learning process. It must relate to the rapture and the intervention of heaven at this time. That is not specific in the text but the foregoing suggested just a little before the other servants joined the souls complete under the altar. The space in Chapter 7 and the development of the 7 trumpets ushered in by the “half-hour” silence leads later to the 7 Phials and the climax of the Heptad of judgment. Chapter 6 alerts us to the general judgments that move on in series **after the universe is shaken in the context of the Rapture**.

13 SEQUENCE(2) 7.1-7.8

SIGNALS THE IMPETUS TOWARDS ISRAEL'S CONVERSION

This very short segment sets before the church the world and angels the wonder of divine grace and the work of the Spirit of God in **the aftermath of Church History** reaching out to bring the nation of Israel to Himself by especial providences. Here we see Angels deeply involved as the Hebrew writer puts it "as ministering spirits sent forth to those who are heirs of salvation". Later in the Apocalypse we shall read of the appearance of two witnesses who consolidate God's work in Israel. **Further still we read of an Eagle twice acting for the well-being of Israel.** We are given notice in this second segment of the vital role Israel and Jerusalem is to play during the tribulation and into the Millennium. This segment follows the great earthquake or geo-physical shaking foretold in the sixth seal. The OT & NT have a spate of notices of this "humongous tremor" (see *Isaiah 13.13; Joel 3.16; Haggai 2.6 & 21; Matthew 24.29; Mark 13.25; Luke 21.26; Hebrews 12.26*) As this segment opens four angels appear on earth "holding the four winds". So at this point the world has been shaken and geography has radically changed and mankind is terribly frightened but the hills around Jerusalem stand and this nation is ready to take its place at centre stage in the world to be.

14 THE FOUR ANGELS 1

John saw four angels standing or as we say "stood" after the style of guards above the four angles of the earth. There is no need to go anti-Copernican. To take the Magnetic north and an opposite Antarctic position along with a position above the mid-east and above the pacific shows how such angular [*γωνιας* "right angle"] positioning is to be read from above [*επι τας τεσσαρας γωνιας*] not from the surface view. The exact positions are clearly ordained of God – but they were devised for global cover and vital hastening immediately future events.

The angels held the four winds – the BOREAS (N), EUROS (E), NOTOS(S) and ZEPHRYOS (W). The winds served as points of the compass do today.

It might be asked why the winds were withheld from blowing on earth, sea or any tree. The obvious answer would be further massive destruction of fruit and the food chain from the destruction of trees [

Greek DENDRON "fruit trees" as opposed to Greek ULE "timber trees"]

Equally seaways were still open during this time of massive earth disturbance and though the land was in turmoil following the greatest "shake" ever known on earth and no doubt for a time the "sea and the waves were roaring" [*Luke 21.25*] a quiet sequential weather pattern would greatly abate the disaster.

THERE IS MERCY MIXED WITH THIS JUDGMENT AND A WELCOME PAUSE BEFORE THE VERY DISTURBING EVENTS OF THE SEVENTH SEAL.

15 THE FIFTH ANGEL 2-3 I saw another angel coming down from the rising of the sun (Anatolia) v.2 here the viewpoint of John is "the earth" – and as vv4-9 show – it may be the Holy Land but these Jews may still be spread worldwide. The angel held the seal of the living God. This is not a question of opening seals of historical events reserved for future revelation – it was rather a case of current use of the seal to set apart God’s servants as those to be saved from among modern Israel. He shouted in a mighty voice to the four angels – the very same ones commanded not to act illegally as to the earth, sea or trees. He had come to enforce the command – “Do not act wrongly (*It may be said that to act at the wrong time is to act wrongly – and clearly angels have government among them to secure good order in this matter*) in respect of earth, sea or trees until we have sealed the servants of our God on their foreheads.

16 SEALED JEWS BELIEVE A GLORIOUS MISSION WAR BREAKS OUT 7.4-15

These angels then joined in the greater ministry of sealing the 144,000 v.4 [*Greek RMD*] for the completion of the elect of this significant period when it is clear that the "fear of the LORD" is the beginning of wisdom for Israel. The sealed persons were sealed where a soldier's hat badge was worn – between the eyes on the forehead. They were heirs of Israel preserved till these late days of God’s sovereign purpose. (*This act bears not the least semblance of connection with the far-fetched claim of modern non-Jewish watchtower followers that initial disciples of the cult ascend to heaven whilst the residual number abides on a paradise earth*) John states with the angel that from Judah Reuben Gad Asher Naphtali Manasseh Simeon Levi Issachar Zebulun Joseph and Benjamin there are 12,000. The sealing was used in New Testament times for slaves and for soldiers. In v.3 the angel specifically calls these persons “slaves” (*after the style of Revelation 1.1*) in their absolute willing obedience to the Lord. This act of sealing forestalls the “mark of the beast” in chapter 13. This is the "mark of the Lamb." The beginning of the next tribulation segment sees these soldier saints pass one by one to Mount Zion – a final glorious testimony to God’s salvation – the thin blue line of spiritual witnesses to the Lord Jesus Christ – and in the passing they witness with great effect against a background of cruel anti-Jewish activism that re-emerges in the tribulation era.

KHATHMA v.3 “seal”- A “different” angel ascends from the eastern sky (and sometimes Persia) though as read modernly China. This angel was committed to the outreach to the east and the routine sense is either in warfare or as the context suggests in the sense of prevailing to seal believers.

HAR vv2-3 “annoy” or “strive”. The wait of the four angels is directed by the “different” angel. The servants of God were to be sealed in the place of the eyes. This we would simply name the forehead. However the Lord seeks to enlighten the eyes and to find the man of the heart reflected in the eyes of those to whom His compassion and love and revelation matters.

The sealing of 144,000 persons-their conversion and bringing to faith would seem not to be a matter demanding a long-time frame. It is clearly the plan of God over an intensive short period to reach all parts of Israel and bring in the complete number of that ancient people. For the Lord the Jewish people who have been protected worldwide are to produce late fruit at this critical time. The verses 5-8 refer to 12,000 from each of the tribes of Judah, Reuben and Gad; Asher, Naphtali and Manasseh; Simeon, Issachar and Levi, Zebulon, Joseph and Benjamin.

17 SEQUENCE(3) 7.9-15.4

The third section of the book (“After this”7.9-15.4) features the world post rapture or post heavens rolling or post-quake. The four angels at the four winds NSEW hold the powerful wind currents that they do not blow destructively NASHAB over the earth sea or any tree. This picture is so different from the foregoing that it seems the earth is given extra time-an amnesty.

v.9. **AMWAN MAZA** “groups in concord ...(numbers) not possible to arrive at or find”. The gross multitudes from all people, generations, **concordant communities** and languages that stood in white with palms was simply not discoverable. No simple census was made. This was the number of all through the entire history of the world who trusted the Lord. The mass people of God is represented to John in this vision. That is simply astounding. God could picture beforehand-thousands of years before- the whole number of His people and this time with palms in their hands. It will be when for real Palm Sunday in heaven- a time beyond the prayers of the saints who suffered- a time of absolute solidarity and glory and joy. This chapter of the bible is supremely for Messianic Jews and for the persecuted and marginalized believers. God’s plan is not frustrated.

PURAQNA v.10 “shout of salvation” Ransom, breaking loose, abandoning evil, separation from wrong, tearing from world vanity, quitting sinning –all of this and more belongs to Yeshua the Lamb of God and to God the Father who sits as just on the throne and remains the author in love and righteousness of this plan of grace. There are numerous shouts –trumpet like shouts eagle like screams, plaintiff cries and voiced applause in the Apocalypse. In the text from Chapter 4 on during the Rapture period and its sequel there are 5 such stentorian voices either of God or angel or massed human chorus. This instance is a mighty voice applauding the salvation God has enacted in face of Satan and the pull of the world and carnality and it is shared by the heavenly conference of the ages.

This shout of the redeemed gained the response of worship from all the angels who were involved in the rapture, the 24 elders, the four primeval Living Ones who fell in holy worship before the throne. They said, “We affirm and believe glory and blessing and wisdom and thankful acceptance (in the “presence” at the festival or feast) of favour and honour and power and the multitudinous river of

strength belong to our God for the age of ages or eternity; we so affirm and believe.

18 PARENTHESIS(3)7.13-17 v.14 AOLAZNA “fascinating” –A fascinating question is put to John in the context of the huge numbers and the prelude to the “feast”. Why are these all present? Would have been easily answered “By Grace!” but the question is more precise “Where did they come from?” Again the answer had to be “The earth” but the “After this” of 7.9 following the “After this” of 7.1 and linked so nearly to the massive world convulsion of chapter 6 tells us that huge turmoil and the devastation of the horsemen on earth was the setting and scene in the face of which and from the trials of which these redeemed were evacuated or raised. This question to John is the greatest theological question of our age. ***Does the church escape the tribulation?*** Is there a mid-tribulation exit after a last witness of the believers who arise and shine amid the wholesale darkness of the early tribulation period or a prior meeting with the Lord in the air? It seems the question answers the appeal of 6.10 and the divine reply of 6.11. One has to answer like John “God knows? The saints in heaven know! We must be content that while the first is fundamental both may be correct. 1Thessalonians 4.13-5.10 clearly states that “peace with guarantees” and a world not unlike that of Noah with its plenty and corruption, its progress and stability is the scene of the Rapture but the immediate sequel is sudden destruction. God, however, did not appoint His church to fall under His wrath designed to test or avenge those who settle for the world and Satanic dominion for which very reason such as repent subsequent to the Rapture and suffer within the early tribulation context of besieging hunger and constraining urgent poverty and extensive cruel persecution- escape may of necessity be by the supreme sacrifice as inevitable as Calvary but such may roll out in the divine blessing of a huge response to righteous suffering amongst the nations and Israel even in this God cursed era if not in an additional redemptive event.

QADAM CORASIA v.15 “before the throne”- The truth of scripture that “To be absent from the body is to be present with the Lord” though it is also “to be complete” i.e. to have experience of the body prepared from heaven. So the further joys are to stand in the presence of the throne otherwise unapproachable; to shine and serve daily as the sun serves the earth; to be pure in the sense of having “hollowed out” the earthly body so that the soul is without its drag and the mind of Christ and Christ-like heart abides alongside all the elements of soul and spirit and body mobility and integration required for the environment and ambiance of eternity. This body will not exist by bread and water and so not thirst any more nor have to live under the cancer bearing rays of the sun. The change and renewal spelt out here again involve mysteries beyond exposition below.

W'NALHA COL DAM'AA LINIHON “And He will wipe away every tear”
v.17 (Crawford MSS of the Aramaic Apocalypse). This verse is ancient poetry
based on Psalm 23

Transliterated it reads in English

Metul d'amra d'vemesath kursya
Ners ennown oo'nashwal ennown seed hayay
Oo'seed aynatha d'mayya
Oo'natha koll damaa min aynehown.

He will erase and blot out-wipe away every single tear. He will as the Lamb be the Shepherd and direct and instruct us into eternity. We are always by the side of Life **TZID** is the word for “with” and the word for “fisherman” so John is telling us that his trade learning by Galilee and heightened in the mission of Christ comes in handy in heaven –we are all going to be intrigued by the life that is in heaven and pursuing it evermore and beside the “fountains” the very sources of life and that will just be so satisfying and glorious. No more shall we be oblivious to the reason why or the glory of how God leaves His imprint by the word of His power. We will be privileged to have Christ for our Pastor and Expositor. Solomon told us “all rivers run to the sea” and the waters work in a circle. In heaven we shall learn that all life sources in God and returns to His throne. Life centered around the eternal throne and without sorrow lies not far ahead, beloved. It is real but shares his heart and righteousness which adds no sorrow. Here is not memory erased but heightened compassion not the **DAHALTHA** “making a difference” AV or “having dread” of Jude 22 but the experience of love and grace in Glory.

P.S. The subsequent events **and the enigmatic stillness when even the cherubim of heaven ceased to call and earth experienced what our Lord called unprecedented devastation** and unequalled tribulation are coupled with parentheses giving us glorious views of heaven to counteract wrath on earth. This further series of events fits into Parts 4-7 of the sevenfold “After these things” pattern of the book which set out the wrath of God over the 3.5 years at the end of history’s human government in contrast to the 3or more years with its own seven “After these things” of Jesus ministry of Grace recorded by John in the sequential diary like gospel under his name. This section of the revelation of God I have set apart to deal with in Wordbook 27(5-6).

CHAPTER 8

19 PARENTHESIS (4) 8.1 v.1 **PALGOTH SHALA** -There was **silence SHATHQA** in heaven when He opened the seventh seal. At the opening of the seal three things of high moment occurred. With this section come war trumpets and the first WOE which must be a major human calamity.-perhaps of a nuclear order!

- (1) Those seven angels before God were given seven trumpets
- (2) Another angel at the altar –a golden censer was given him of the prayers of saints
- (3) After the incense went to God the censer full of fire was cast on earth with thunder, voices, lightnings and earthquakes-huge disturbance.

The most solemn thought is that God Himself was silent. He was not ordering anything –it was a short period I would interpret this as the “half way point through the maze of the seven years. It is the point from which the hour of suffering intensifies *in extremis*. It is also a dramatic point in heaven when the saints have their way with God-when all earth’s righteous suffering becomes the judgment of the unrighteous. In this one chapter 4 trumpets are blown with devastating effects on the earth.

20 TRUMPET ONE 7 PETHAQ “Coming to a head”. Hail and fire “bursting open” or “penetrated” “mixed” with water. The idea seems ludicrous since fire and water do not mix. However hail and fire can create steam. A third of the earth is to blaze with fire and a third of the trees and all of the grass or green herbs. The huge diminution of trees and the wiping out of herbal life will instantly result in famine. The Aramaic pictures the “hail and fire” mingled not with blood but water”. The worldwide effect on herbs is to be linked with one third of the world being denuded of trees. As in Jotham’s parable trees can represent “rulers” so rulers of one third of the world fall.

21 TRUMPET TWO 8-9 TORA v.8 Many will remember the hideouts of Al Qaeda in the Tora Bora mountains. This word is linked to the eastern usage of Aramaic which was once a language extending east as far as Babylonians had influence. “A huge mountain that was burning fell into the sea and a third of the sea became “blood” The hail and fire are to affect the land and the mountain affects the sea. One is not aware from prophecy here whether there is human agency. Certainly there is simply a trumpet blown and it would seem there is to be an earthly military or political event connected-in this case the fall of a great empire and the loss of much life

22 TRUMPET THREE 10-11 v10 COCABA “A star” A great star burning exactly as a furnace fell from the sky. The description fits something nuclear with the “smoke of a furnace” accompanying it. The well-known atomic mushroom assimilates with this vision. This “star” falls on the rivers and springs of water. Thus the waters of the world-the fountains in the mountains and the rivers that run to the lakes and seas are to be heavily affected-presumably polluted. The waters became bitter **MARMAR** and the future name of this star or falling material is to be **APSYTHNA**; - absinthium is a “bitter medicine”. This will kill a multitude of the sons of men through the waters it affects. We have

great difficulty avoiding human agency here and indeed in all these events associated with the trumpets.

23 TRUMPET FOUR 12-13 v.12 **BALA** “Swallowed” The light of the Sun Moon and Stars was swallowed up so that only a third of the light appeared during the day and during the night. This may be what we call “nuclear winter” but certainly this prophesied event is of high moment and far reaching consequence. We have no reported reaction from those on earth at this stage. v.13 **NESHER** “Eagle” And I heard one eagle flying in the sky that said “Woe, Woe, Woe to those who stay on the earth from the sound of the trumpets of the three angels that are going to sound out.. This “eagle” that flew freely over the whole world represents a latter-day power. It appears to be a power apprised of the apocalyptic narrative and understands that something more serious is ahead. John was fascinated perhaps for the first time because some power on earth understood prophetically what was afoot in the judgment. This note in prophecy seems to be telling us that God knows that some of his servants thousands of years ahead would proclaim the truth of this prophecy close to the time of its fulfillment.

CHAPTER 9

This chapter takes us through the fifth and sixth trumpets and the next chapter draws us further into judgments and wrath when the seventh trumpet is previewed and finally in chapter 11 the seventh trumpet is sounded.

24 TRUMPET FIVE 1-12 QALIDA BAROHI TAHOMA v.1 “Key of the deep pit” The “Pit” both in popular parlance and in theological jargon it means “hell” and its last use in the Apocalypse (Rev9.1,9.2,9.11,11.7,17.8,20.1,**20.3**)**20.3** sustains a spiritual connotation of interminable descent. Its first use in Genesis1.2 on the other hand is indicative of the lower parts of the sea and the bowels of the earth. It is used of the bottom of a well and of the profound sea depths. In this instance by context it has a clear geographical significance. The smoke of the pit, the dark skies, the locusts that as they fly they have scorpion stinging or killing power (v10) clearly intimates a concerted warlike campaign. The further formation of the so-called locusts and their preparation for battle and iron bodies and noisy wings without a shadow of a doubt intimates aircraft. All of this faces us with the challenging question as to how the locusts relate to the pit or well and the clearest answer seems to be that they are *manufactured and fuelled by the produce of the pit which is oil*. It should be noted that this pit and industry as we now know has been already in existence for at least 100 years **NAPAQ** v.3- The “issuing out” of “locusts” as military forces suggests that from the combination of oil and industry these machines of the air would be produced. They were to constitute the prized ultimate power of future time-they were scorpions or we might read they had equivalent and associated land based military equivalents.

“It was told them” indicates that they were not scorpions but instruments capable of receiving human instruction. They were not to “harm” or “irritate” or “fight” the environment but only the children of men who are not sealed. This suggests an *Elijah-like* time during the tribulation when **evil would be combated with precision**. Even then they were not to act in warlike slaughter but by inflicting torture or punishment **SHIQ** on the unrighteous for 5 months. This appears to be pre-emptive strikes against dangerous munitions centres. Highly specific targeting as in scorpion against man is indicated. The “locust-cum-airplane” has in 2018 been celebrated in its RAF service over 100 years.

RAGRAG v.6 “flee”- The praying for death is to no avail. The days are ones of loss of food supplies and fruit bearing trees-of darkness and of disruption. The desire for death or suicide is abnormal but in modern time it has become a militant duty for terrorists. Who but the Lord could foresee such development. The manner these enemies of right were handled with **precise strikes** frustrates their objective.

DAMORA v.7 “form” The “form” involves an eight-fold description-quite precise and confirmatory of their being aircraft. The verdict turns on:-

25 TRUMPET SIX 13-21 PHASE 2 OF SEQUENCE (3)

1. Prepared for battle with armour.
2. Crowns on the head or head gear of their commanders in chief.
3. Faces precisely like the faces of men-nose cone and eye window cockpits
4. Hair like women-covered with camouflage and trailing smoke like hair when in use
5. Teeth like those of lions-armed to kill
6. Joints or ligament or linked parts of iron-cf .swing-wings, tails and engines etc.
7. Wings (with mounted engines) creating the sound of chariots-
8. Hinder end or tails with stings or life-threatening armament.
- 9 Their king or ruler was **ABDO** (Ar.) Skilled and **SHRA**(Heb.) Faithful. Greek Abaddon

SHARI MALACA AL RABA PARA v.14 “Loose the angels at the great river Euphrates”. This is a further answer to prayer for the action begins by the golden throne of incense. The voice that commands historic judgment to proceed would seem to present the prayers of the saints to Eloha. The voice both represented men and God. The four angels had been “bound”**ASAR** “ensnared” or “fastened”. This tells us of four nations who had angelic governance tied up in the Iraq conflict. They are Russia, America, Iran and Turkey. The severance of divine control brings ultimate war. What we are talking about here is the solving of the riddle of Iran. It is the most formidable question the modern world knows politically. This is a dissolution and end of a weary wait. It is in the nature of the end of a treaty and the repudiation of a status quo.

PARASHA “Mounted soldiers” or “assigned troops”v16 -The fact that four nations and their leaders were ready as for Passover for that year, month, day and precise hour that involves the death of **one third of humanity** shows the reason why it was so long hindered. The number of troops involved was 200 million. This is not a fable and this number will comprise the largest engagement militarily ever known on earth. The long military preparation of our time is in view of the final war!

Detail:

1. The **RACASHA** has the connotation “horse” or that “constructed to be ridden” It is a vehicle.
2. The soldiers conveyed had camel like covering **SHARINA**
3. Breastplates as of fire and brimstone. The first is a visual and the second a sensual image. Their person is connected with destruction-whether missiles or guns or handheld grenades and launchers.
4. The heads or turrets of the constructions had mouths from which poured fire sulphurous smell and smoke. The conception is of tanks.
5. The deadly projected fire **NAPHAQ**—the issuing contents of the gunnery which could be swung to the forward or rear positions was deadly.

MAHON “Scourges” These three deadly wounds or plagues which are likened to those of Egypt accounted for the death of 1/3rd of humanity which on today’s figures is over 2billion persons. Fire might be of a nuclear nature and brimstone acid or that which affects the breathing and smoke fumes. The question is, “Will the final war lead to the use of gas because of the terrible alternative?”

TUB “turned” The surviving remnant **SHARACAH** did not turn away from their (a) counterproductive work;(b) their spiritism;(c) their material idols, (d) murders, (e) witchcraft or (f)fornication, wicked habits or prostitution **ZIAT**. The Greek adds “thefts” The two words look so alike in Aramaic that a second writing of fornication as theft is possible in translation. This is possible double translation with same ending **WATHON** and addition of **GANAB** for **ZAH** what we do not want to miss is the inveterate nature and endemic sort of sin in its double-dyed power over mankind during this time.

CHAPTER 10

26 PARENTHESIS(5)10.1-7 AHARNA v1 “Different” A distinctly different angel descended **KHATH** from heaven. There is no comparison to be made with Satan’s fall in Luke 10.18. This is a magisterial act citing heaven’s continued specific intervention and the seven years of angelic rule and warfare. A very clear statement of heaven’s mercy is attached to his coming-a rainbow circles his head. His is a ministry momentous as the sun’s. His legs are the descriptors of protection as was the fire in the wilderness. A small written codice **KATBONA** was in his hand. And he set his right leg on the sea and his left conversely on the land (cf. v.5 “the desert land” where grass & trees had shriveled up). If it were

his left on the sea he would be facing north but his right on the sea means he faces south. If he appears to John on Patmos he is facing Israel. One eschews high specifics for the topic the angel is come to make very clear is that what is to be revealed forthwith is a short historic cycle contained in a breviary.

27 THE SEVEN THUNDERS MYSTERY 3-7 RAMIN “Thunders”v.3 Seal up what the seven thunders spoke. The thunders accompanied the angel shout and they were eloquent. They undoubtedly tell us the Lord Himself spoke. The voice of v.4 is that of the seventh “angel” (cf. v.7) and it forbids writing what John clearly understands. The “son of thunder” (John) is speaking of the anger of God.

ZABANA “delay” v.6 -The great angel swore by the eternal living One that there would be no further delay. Transitional arrangements no longer apply. Temporary measures had held the situation-now it must unfold finally even with huge suffering. God who made all the fullness of heaven and earth is putting it all in the melting pot to mint a new age.

ARAZA “mystery” v.7 -The hope of the prophets-the return of Christ-the day of the Lord-all these were now in view. This was the good news we first read. All this was to be completed. The DAYS OF THE SEVENTH ANGEL are the unraveling that supremely interests John –the more so because intriguingly the heavenly voice forbade its utterance. It was read only!

28 PARENTHESIS(6) 10.8-11 SAB “take” v.8 The heavenly voice of the Lord spoke personally to John saying “Go out to the angel and take the book!” John had authority to take the most treasured mystery book of all ages in his hand. When John went and asked for it the angel said “It will be bitter to your belly when you digest it but sweet as honey to your lips as you taste it. And with it he said “It is your duty to prophecy in the little time you have left to many nations and peoples and languages and kings. This matter is of huge international importance and so John writes on in the futuristic terms of chapter 11-19.

CHAPTER 11

28 TEMPLE REINSTATEMENT INITIATED 1-2 QANYIA v.2“measure/reed or canon” A reed was given me like a staff or measuring rod and an angel standing said “Rise and measure the temple of God and the holy place **MADABA** of the altar and those that worship **SAGAD** in it. Measuring the temple with a rod is possible but measuring the people with a reed is significant. **ONE UNDERSTANDS WHEN** John had measured the temple with a reed and then the holy place his reed would be in a poor state-probably broken –like the people or priests about the altar. John was told not to measure the court. The outer court was not measured for it would be in Gentile use yet for 3years and a half. During

this time re-expressed as 1260days (360 X3.5=1260) two witnesses would prophesy.

29 TWO WITNESSES 3-12 SAHADI /ZITHIN/MANORAN v.3“two witnesses, olives, menorahs. Considered in respect of the risen Lord of **heaven & earth** these are “witnesses”; considered in respect of the Holy Spirit they are Olives; considered as Jews they are like two seven-branched lamps-both the daily fuel and the daily light were represented and replaced for the moment by these prophets (Zech. 4 11-14). The text tells us that instead of Menorah’s in heaven there are alumni. These menorah are testimony to Jew & Gentile alike-“**the whole earth**”(Aramaic). **NAHAR** “harm”v.5 “burning light” and “fire” comes from their single mouth and swallows their enemies. The judgment they pronounce follows instantly like that of Elijah. John Boanerges on at least one occasion wished for such effect but here in an era of judgment it is reality. They have threefold authority (1) To hold back rainfall (2) To convert water to blood and (3) To apply plagues as much as they wish. **HAYTHA SALAQA YAMA** V.7 “the beast that ascends from the sea”. The angel stood on the sea (that beside which John also stood)and the land(Israel)-with control-once the prophets held control-now the beast wrests control conquering and killing the prophets. For John the sudden sea-change begins to sicken him-to feel sickly in the pit of his stomach as the angel said. Here the beast ascends from the “sea” not as in the Greek and NIV. The final “beast” is European and the sea is the Mediterranean. The fact that Rome was ascending in John’s time and is in its *Rome Redivivus E.U.* form ascending in ours validates the statement and exegesis. **AICHA MARHON ATZHTALB** v.8 The corpses of the two witnesses lay precisely in the city where the Lord was crucified. They will not “allow” **SHABAQ** them to be buried and the world will view them. Worldwide television(the obvious and now existing means toward this end) is anticipated by this statement. Earth’s inhabitants, cities **Z’AM** families, languages, Gentile nations **AM** -all these will watch the despising of divine prophets. There will be rejoicing and celebration and merriment and they posted free gifts one to another-which would take a few days to arrive. It was the end of the **SHANAQ** or torture era of pain and punishment –so they thought. But within three and a half days their spirits returned and they stood up. The Holy Spirit is to fall upon mankind in deep conviction and great fear exercised those who witnessed this overwhelming reversal of fate-this outstanding resurrection and last days confirmation of divine power -the world and his wife were discomfited by the power of the Spirit & the power of television. **SALAQ** v.12. The witnesses (nay maybe even the hosts of viewers!) heard a great voice “Come up” and they ascended in a cloud. And the “lords of flies” who opposed them “fixed their steady gaze” **MATZAD** on them. People acted with the vigilance of Israel’s MOSSAD realizing this is God in his opposing dynamic power.

30 THE SECOND WOE CITIES FALL 13-HAD MIN ASARA One from every ten cities fell. The Greek and NIV text obediently have “A tenth of the great city fell”. *These cities were “ruined” or obliterated” or “destroyed”*. *The Aramaic MADIN AND MADINTHA* is clearly “cities” and one does not speak of one tenth cities so the Crawford MSS appears to be a proper representation of the effect of a great earthquake which affected many Jewish cities and resulted in the death of 7000 men and the remainder were in dread and gave glory to Eloha of heaven.

31 PARENTHESIS(7) 15-19 THIRD WOE MAHADA “at once” v14 Two woes are gone and the third comes immediately or “greeting you”. This is a sort of “joy of the woes”. They are like three lions-they hunt as a pride-the third follows up the second’s success. There were great voices in heaven which said “**The Kingdom of the world has become that of our God and His Messiah and He shall be king for eternity.**” “Eternity is always “the age of the ages” because from our point of view it is ushered in by the millennial era. The Greek “our Lord and His Christ” is redundancy for both are the same person. It has to be “our God”.

32 TRUMPET SEVEN 17-19 NASAB “taken” v.17 “You have *taken* your great power”. The 24 elders vacate their seats and fall on their faces in utter joy and humility and worship. Their joy is deep because the Lord has done exactly what they wanted long ago. They dutifully say “You have held it all together-you never lost control-and you are and you have been the one who “is” always. The Lord had “assumed” “taken in victory” His great power in warfare **HAYIL. ZABANA** “time” v.18 The “coming time” is comprehensive of (1) Angry nations on earth (2)divine anger at gross sin (3)Judgment of the dead (4) Reward time for prophets and saints-direct appreciation from the Master shown to those who revered the name of **ELOHA** - the small (young, feeble –of low degree) and then to the great(mighty noble and princely)-this is the order of appreciation (5) In this coming era those who destroy the earth will be allotted to their destiny or destroyed. God measures to those who destroyed destruction.

HICAL “temple” v.17 2 “The temple was opened in heaven-the ark of His covenant appeared in heaven and there were lightnings, thunders, and voices and earthquakes and great hail”. His covenant **DITHEKA** which He laid down in His blood is distinctly the basis on which God in Christ redeems. In this connection the heavenly temple was opened and there the sign of the actions of Christ-his law in the gospel, His miracles centred in the risen Lord and He Himself the living manna. The temple is His palace-His church. This was accompanied by as much joy as the Israelite tribes felt when the first tabernacle was erected or when Solomon opened His temple. In this instance however the heavenly people would be separated from the earthly hosts and voices of governance and powerful judgments would be outpoured upon disobedience.

LOOKING AHEAD

This section of the Apocalypse is cogent to the ultimate development of government on earth under the Mediterranean Europa “Beast” and current and forthcoming events may be usefully compared with prophecy.

CHAPTER 12

33 THE WOMAN AND THE DRAGON 1-8 *The finale of the struggle of the woman and the dragon. The part of America with Israel. The chapter recaps 20th century European history.*

And a great sign [**OTHA** a military “standard” or “flag”] had appeared in heaven—a woman **ATTA** [usually a woman in relationship] clothed [**ATIPA** from shoulder to ankles] with the sun (ministry) and the moon was below **THAHATH** her feet And a royal crown **CHILITH** of twelve stars on her head.

And she was with child and cried out and she was in labour and also in great pain to deliver a child **YELEDH**

And a different sign appeared in heaven and behold a great dragon of fire **NORA** (or conflagration) to whom there existed or were seven heads and ten horns and upon its heads seven crowns [**THAGASH**—unlike the royal crown of the woman the beast had seven rulers attached to his head or pushing his business on. The woman had twelve apostles who ruled the church and she was clad with the glorious ministry of God.

And its tail (the dragon’s **DANAB** i.e. “the rear of its army” dragged [**GARASH** pulled removed or carried off] up to a third of the stars that were in heaven [It is worth noting that the twelve stars of the woman were constant and they were men but the angels were in millions and they forsook their estate.] And the dragon cast them **RUMA** [as in a fixed position for battle] on earth. And the dragon was standing before the woman who was having to deliver or **distressed in ATHID** childbirth and when she delivered he would consume her son.

And she delivered him—a Son - He who was ready for the shepherding of all the peoples with a rod of iron and her Son was seized, plundered or carried off **HATAPH** [cf. 1 Thessalonians 4.17 where the saints in the “rapture” are “carried off” like booty or plunder. Severus of Alexandria spoke of an age exhaling secretly or “passing away” quietly—so will it be with the Church—so it was with the ascending Lord. It was unknown to mankind at large] to unite intimately with God and to unite intimately with His throne. [The parallelism between “one third” of the angels leaving and Christ returning to the seat of power is very clear].

6. The woman fled to the wilderness where there was a place (as yet unknown to John) prepared [**THIB** established] for her by God. [This flight **‘ARAQ** is a decided Jewish escape to a refuge of God’s preparing.—relating it to the birth of Christ it brings us to the 20th century if we call it Israel and that would make sense. The time lapse between the birth of Christ and the establishment of the state of

Israel is vast but immediately Mary fled to Egypt and on her route she was in the desert. John knew Mary well. The Holy Family were not so long in Egypt-so this image is related to the latter day. The word “prepared” is related to the word “grace” **TIB TIBOTHA** so the woman or the Jewish people gain experience of the “grace of God” in the latter day and during the tribulation from the provision made for them. “She was sustained **THORSI** restored and supplied”. I have always found it hard to imagine as clued up and biblically competent friends Bill Freel and Mike Hodgson in 1995 contemplated that this spot should be Petra-especially as it is not suited to the care of a national dispersion-but the one who comes from Edom(cf Isaiah63.1) may indeed protect the Jews on this their southern flank in the latter days before the restitution meeting with His people as in Zechariah meets the people on the Mount of Olives.] The latter day “eagles wing” protection is I believe a much greater action in respect of the final dispersion and involves America!

And there was “war” by drawing near **QEREB** of Michael and his serried angels who were the ones who initiated the encounter with the dragon and the dragon and his angels fought. This was nothing short of a foiled attempt to subvert the whole angelic host. The other arch angels would have nothing to do with the heavenly rebellion.

And they did not prevail or could not convert or take by force **MATZA** and no place of habitation or region was found for them in heaven. The word xk4 indicates “that which is equal” or suited to one who would overcome and change. Heaven was not going to submit in any quarter to them and God was not going to invent a place for rebellion and pride in glory.

34 PARENTHESIS(8) 12 9-12 And the dragon –that chief or first great venomous serpent which is called the “one who consumes or provides as food accusations or stinging false charges **AKAL-QARATZ** -Satan the adversary-he that wanders secretly around or corrupts (*the whole earth*) **TH’AN** or to be burdened with or to give attention to the earth. **RAMAN** was thrown down to earth and his angels with him. The Syriac speaks of “being entangled in the dust”. God predicted that Satan would “eat the dust”.

And I heard a great voice from heaven that said” **Now** –thus far-behold there is-or we are on the verge of **AH** safety, refuge, salvation **SHOOZBAH** and power or might and the kingdom of our God for the informer denouncer **MASORA** slanderer of our brothers has been cast down-he that has accused them night and day right before our God.

And those were justified, vindicated and victorious by the blood of the Lamb and by the word power or word hand of His testimony **SHAHADOTHA**-*this is the heavenly side of Christ’s testimony in continuance and may involve their death too.* And they did not love their souls unto death. *It may also relate to Mark 14 61-2 I am the living God!”*

Therefore O heavens and **those who dwell in them** you have been cheerful and bright of countenance *This would include all martyrs and later the Parousia saints-* but Woe **WI** to the earth and the sea for the slander feeder of the sting has come down been humbled entered battle with them –with massive heated rage after dk he knows that there is a swift little paucity [*the dregs off*] of market time-or business time **ZEBEN** for him.

And after the dragon or sea serpent saw that he was cast on the earth he persecuted the woman who had power by extraordinary deed **AIDA** to bring forth the male heir.

And there were given to the woman two wings **GAPIN** of a great eagle. *This is a Passive so it speaks of the latter end of the Jewish dispersion and of its 20th century and onwards connection with America. NB-The “eagle” can operate independent of the “beast”.*

*The image is not only recognizable as the United States but it is one of speed as in Exodus 19.4 It has to do with Israel’s return to God. The final stay in the USA and the support of the USA are one thing-but the speed of Israel’s return to the Lord is another. These wings were given... that she should fly to the wilderness to her somewhere! **DOCATHA** to be sustained there for a time two times and the division of a time **from the presence of the beast...** This is the clearest evidence that the Beast does not control the whole world and that America of the latter day even after the Rapture is not subservient and it may be the uncertain place called “wilderness” or empty place. Some think of Petra as the empty place and indeed as Christ comes from Edom that might sound sense. America itself could figure as in early New Testament times it was a mere wilderness if one can bring oneself to classify America under its then current description given by God to John who knew not even of its existence... There to be sustained from the countenance of the venomous serpent.*

And the serpent [*the face of evil responsible for poisonous diplomacy*] cast out from its mouth or by its order or decree something exactly like waters of a river to serve the purpose of causing her to be finished **SHACAL** by the waters. *The meaning is fairly clear. The devil (specifically mentioned) use the United Nations which represents “all nations” of which there are about 200 to end the authority and power of Israel as a state. We can now see that ploy beginning to be exercised.* And the earth helped [*with auxiliary troops*] **ADAR** the woman and the earth opened its mouth[*by government declaration*] and swallowed[**BELA** attacked and absorbed/] the river that the dragon cast from his mouth.

And the **sea dragon** was incensed[*Does this prefigure a “Europe led axis” under Satan as opposed to an Israel American stance*] against the woman and went off to make war with the remnant of her seed or dispersion. *This mirrors what happened in the 2nd world war though as contexted in the final days it is still ongoing and will climax ahead of now.*

Those who keep the commandments of God and have belonging to them as their the testimony **SAHADOTHA** of Yeshua Jesus. *The chapter ends by showing that*

the association means that the Americans come under serious opposition from Satan for her support of Israel.

CHAPTER 13

35 THE EUROPEAN “BEAST” 1-10 (a) *a sultanate/caliphate rather than kingdom* (b) *Converting to the religion of the beast* (c) *The mark of the beast that comes out of the sea. (cf. classical idiom of Europa and Zeus replicated in the bronzes at the Brussels and Strasbourg parliaments.*

And I stood on the sand HEALA fine sand of the sea and I saw a beast or living or recovering creature **KHIOTHA** which was stirring mounting from the sea which has his ten horns and seven peaks or summits or skulls **QARQOPOTHA** and upon its horns ten crowns or rulers **THAGOG** (cf. Greek **TAGOS** “chiefs of one mind”) and upon its heads (Rome itself with seven hills) the name of Blasphemy. The **Crawford text has “name” in the singular.** This has been linked to the idea of Christ’s representative on earth “vicarius Christi” which has a 666 connotation? And the beast that I saw was like or *metaphorically* **DAMOTHA** a leopard **NAMER** as in Song 4.8 & Jeremiah 5.5. *i.e. it was brown and white or black and white* and its feet were exactly like those of a bear **DOBA** and its mouth (singular) was exactly like that of a lioness (*not* **ARIA** but **ARIOTHA**) *the significance of the feminine is that it must have roared to not in hunting but in protecting.* And the dragon gave it its power or force and its throne or Episcopal see **KORSIA** and its great authority *Qntnlw4 the term derived from (1) “sultanate” and suggests an Arabic or Caliphate style rule.*

And one of its peaks or heads was exactly like it **had been crushed** or wounded to death *OpOp an onomatopoeic term like the rat-ta-tat of a gun* and its mortal wound *Otwxm Luke 10.34 of the Samaritan’s “wounds”* **had been healed** and all the earth **had been expressing admiration** following successively (head down) after **BATHAR** the beast. *The wound was not inflicted there and then-it had been healed in the bygone.*

And they worshipped **SAGAR** (This word **SAGAR** in late Aramaic was used of “becoming a Muslim” or “converting”-the word originates with **HAGAR**, female progenitor of the Arabs and Muslims) for the **dragon** who gave (2) sultanate to the beast and they “became Muslim” or “converted” for the beast saying “Who is one like the one **HADA** living creature” *The present confession of Islam is “God is one”. This declaration is replicated in the worship of the final empire or sultanate* and who is able to encounter or war with it? And there **had been given** it a mouth that with **loud speaking** noise says intensely haughty or oppressive things **RORBOTHA** and cursing or reviling (*In Isaiah 37.29 and 2 Kings 19.28 the word “insolence” is used-the Syriac has “left-handedness”*) and (3) sultanate had been given it to exercise for forty-two months. *It is quite clear that in the absence of Christians an authoritative power using Caliphate style rules in Europe.*

And it opened its mouth to blaspheme in the presence of Eloah against the name (YAHWEH) and against the dwelling place **MASH’ARIA** of ones who dwell in

liberty **SHARAN** in heaven. And access or opportunity was given make war with the holy ones (This is suggestive of people under vow or worshipping God) and to defeat tithe and put under oath **ZACAN** to its (4)sultanate all civil societies **SHARBOTHA** metropoli or mothers, languages and nations. *There seems no exception to this ultimate power thrust and it controls all centers of power languages and the 200 plus nations of the globe.*

And all the inhabitants of the earth will **worship it by conversion** –all those who are not written in the written book of life of the Lamb who purposed to be slain before the laying down of the world’s foundation. Who is it that has an ear of his own let him listen!.

John proceeds to give the only remaining options in this time of absolute rigour. Whoever conducts into captivity departs or goes away into captivity and those who murder with the sword will be killed by the sword. Here is the faith and hope message or good news of the holy ones. This is an important verse detailing the ultimate nemesis of the sultanate and its self-destruct mechanism. Those who are involved become slaves of the system and those who fight for it are killed. There is good news and hope for the that holy in the worst of times-even the prophets from heaven!

36 THE BEAST FROM THE EARTH 11-18 . And I saw a different beast prospering or succeeding from the earth and it had two horns in the pretense of or imitating **DAMIA** a lamb but it was speaking exactly like the dragon. And it will (1)*make a friendship* with or be put in charge of or urge on db9 the entire (5)sultanate of the former beast before him and it will seize **the land** and **all those living apart or separate** in it to convert(them) to worship of the presidency of **QADMIA** the beast whose deadly wound had been healed. And it will (2)*perform or produce* celestial signs **ATHOTHA** exactly like(3) *making* fire come down from heaven upon the earth before the sons of women. And he will lead astray and cause to wander and forget **T’AA** those who live settled and apart in the land by the signs given him(4) *to produce* before the beast to command those who are settled on the earth(5) *to make* an image of the beast that had the sword wound and lived. And it was given him to bestow spirit or revive the image of the beast and(6) *to make* all who would not convert to worship the image of the beast to be killed. *The woman on the beast is a unique symbol and it is entangled with the whole development of modern European statecraft.* And he(7) *will make* all small and great rich and poor masters and servants a mark on their right hands or upon their heads between their eyes. *Much now hinges on the introduction of chip- based money and its widespread trading use.* And a man might not buy or later sell except the one who has existing on him **the mark** of **ROSHMA** (engraving/stamp/seal) the name of the beast or **the number** of its name. Here exists the wisdom-but whoever has existing in him intelligence let him estimate or calculate the number of the beast for it is the number of the son of a woman-six hundred and sixty -six. *Irenaeus who was a pupil of Polycarp who was*

mentored in turn by John used the word *LATEINOS* which is $30+1+300+5+10+50+70+200=666$. This link took account of the early martyrs and sadly since historians estimate 50,000,000 martyrs have fallen to Rome's sword. The second beast is clearly seriously tyrannical and on a par with the earliest tyrants of Rome and may well be a master of the virtual world and the business world with different if any religious scruples.

CHAPTER 14

37 PARENTHESIS(9) THE LAMB ON MT ZION 14.1-5 *1. The 144,000 chiefs of the righteous who accompany the lamb since the first fruits resurrection. 2. The first satellite of late gospel times proclaims hope judgment conversion and the message of a creator for a secular age. 3. The second satellite proclaims the fall of Babylon-an event of huge worldwide moment. 4. The third message from mid heaven is that to receive the mark is doom. 5. The 5th lesson is that hell and destruction await the rebellious. 6. The 6th lesson is that with the end of Jewish freedoms a messenger of God on earth calls on the Son of Man and the result is the immediate sickle of Russian involvement. Amid these angels the Parousia reaping is recorded and the end of Daish is registered at the end of the chapter.*

1. And I saw and behold "the" Lamb standing on the Mount of Zion and with Him 144,000 who have upon them His name and the name of His Father written between their eyes. *The word **CATHAB** in Leviticus 1928 respects a tattoo but this is a highly prominent seal.*

2. And I heard a call from heaven the call of many waters and exactly like the sound of great thunder-the sound I heard was exactly like a harpist who played on his harp. *The Greek plural presents a bank of harpists but the writer's idiom is meant to be beautiful and maybe mournful to John though it bespeaks anger too-it is the choral voice of people or Jews from many nations. This thunder must be associated with the saints in glory*

3. And they sang a new hymn of praise before the throne and before the four beasts and before the elders and no man was able or equal to **MATZAN** to become familiar with or teach the song but only the 144,000 redeemed from the earth.

ZABAN 'bought' in the sense that they came from a world foreign to them and they were taken out as Paul describes in the out-redemption-Romans 8.23 *Ephesians 1.13 & 4.30-the $\alpha\pi\omicron\lambda\upsilon\tau\rho\omega\sigma\iota\varsigma$.*

The first fruits were those who accompanied our Lord to glory as in Matthew 28.53 so we have a choice-were there so many as 144,000 whose graves opened and who went with Christ to glory? Alternatively were these the latter- day harvest first fruits of the end times? The further elucidation is needful

4. (a) These are those who had not been soiled or besmeared with women for they lived in male chastity. (b) These are the ones that unite in marriage like union with the Lamb every precise time dk He goes away. (c) These had been redeemed [the d of the Ethpael speaks about a past event] from men -the first fruits to God and the

Lamb. [The word **ROSHITHA** can mean captains of thousands so without any symbolism this figure could be moved three decimal places to gain a notion of the myriads they represent-many millions-so as it is used of arch angels it may be used of chiefs of the righteous. This interpretation would provide linkage between the early church and the latter day redeemed of the “out-redemption” and solve the issue as to who they are.] These then move from the earth after the resurrection and these come back when He comes and these return with the church from the skies when He goes to the bridal feast and these return in glory when He comes to reign. That I think fulfils the(b) bit of the statement.

5. (d) Related to their mouths and speech no error disavowal or deception was found in their mouth (d)because they are without wax **MOM** or blemish. This is the fifth part of the description and it does not urge they were not sinners but that they were true from top to toe. They were like statues made of marble throughout and needed not that imperfections of character be covered up.

38 THE THREE ANGELS 6-13 6. And I saw (a)another or different1 kind of messenger angel that was flying or disseminating or spreading report **PARAKH**[One associated idea is a bird flown like a kite with strings linking it to earth-not unlike a satellite] (b)in the midst of heaven.[This appears to be not the heaven of birds or the heaven of God but the higher atmospheric heavens – otherwise “intermediate” or “half way” to heaven.. The messenger may answer to modern communications and its variant method of dissemination would support that idea. Besides it is not stationary but moving or flying] .(c) And it had on it or him good news or hope of the age to preach to those who dwell on earth (d) and unto all people and nations and *generations*[often of “cities”] and languages. This method could overcome national barriers of race and even age. It appears to relate to the Lamb and harvesting the earth in relation to hastening of the gospel and its dissemination to the ends of the earth

7. Saying in a great voice (a) JUDGMENT “Stand in awe or conscientious fear **DAHAL** of Eloha” and give Him glory because the hour of His judgment has come and(b) CONVERSION turn to convert in worship **SAGAD** to the(c) CREATIONISM one who made the heavens and the earth and the sea and the springs or faces of water(d)[This point relates to the HOLY SPIRIT].

8. And another different No.2 was following or delegated or substituted for him or it and said(a) “Babylon the Great is fallen, fallen (b) that from her heat or passion of fornication forced the nations to drink or poisoned the nations. Clearly this satellite message replaced the gospel call because it was more stupendous and critical to the earth and sent up by the world news agencies.

9. And another messenger No.3 –a third followed them or joined and united to them, consented and pressed on **NAQAP** saying in a great speech “Whoever converts or worships the beast and accepts or loads its image mark or stamp between his eyes. He (a) also will drink of the wine of the passion of Yahweh which is mixed **MATZAL** (with water as was usual) without mixture **KHALAP** (of

water or mercy) in the cup of His anger and (b)he will be tormented **SHONAQ** (cuff 2 Peter 2.4 where angelic chains constitute torment) with fire and brimstone before the holy angels and before the Lamb.” *This appears to be a final destructive act of God.* And (c) the smoke of their torment will ascend to eternity *This is an eternal reminder of their fate as the smoke of Sodom was of theirs...* (d) for there is no revival or renewal **NAPISHA** for those who convert to the worship of the beast and its image by day or night and to him who receives carries or favours the mark of its name. *This statement indicates that while time stands even over the millennium and before the final judgment there is no change or abatement of hell. This fourfold statement is the very clearest alert concerning hell and destruction in the bible. It tells us that while there is day and night no renewal or change may be anticipated but rather the fear of the Great White Throne. From that source at the hands of angels and by the word of the Lamb they who convert to the beast suffer final dismissal to destruction and the evidence of that is eternally known by the smoke of the fire which spells their end.*

Here is the patience of the saints-those who keep the commands of Eloha and the faith of Yeshua. **HERCEA**—*exactly at this point of choosing the seal or stamp there has to be “patience”* **SIBARNOTHA** *and holy people need to be obedient to God and Christ. “Patience” here means to do without and to take other nourishment—the word of God. In Isaiah 42.14 it is used of “holding back” until one cannot do any more. The word links with “old age”* **SIBOTHA** . *In Jer. 10.19 it means “endurance” and in Acts 27.21 to fast enduring a long time. This period is one of absolute austerity and impoverishment at the least for those who live righteous godly lives.*

And I heard a voice from heaven that said “Write O their blessings—the dead who have died in the Lord- From now truly or really **AIN** the Spirit says because they have rest from their great labours toils troubles chastisement **‘AMAL** *We have taken this and applied it to every Christian’s death but it applies from a point when the ultimate pressure hits humanity and it becomes a blessing to die in the Lord rather than live on earth!*

39 PARENTHESIS(10) 14;14-20 And behold a “white” cloud [*the word “white” is cognate to “waiting” and the significance is that it takes time to wash and whiten clothing- so “making white garments” is a saying related to the patience of the saints and this cloud took a long time coming-it was long expected-“Come thou long expected Jesus*] and upon the cloud sat the form image or portrayal of the Son of Man and there is on his head a crown **CALIT** of gold and in His hand a **sharp sickle** (*this is a couplet from Aramaic found in John Gwynn’s early 7thc MSS as distinct from the Crawford MSS though both have strong Aramaic dependency if not origin*) *The sickle is symbol of Russia and the word “sharp”* **HARIPA** *means “severe” “brisk”. It is for the last office of judgment of the whore that the sickle is reserved.*

And another angel No.4 went out from the temple and shouted **Q'AA** in a great voice to the one who sits on the cloud.[*This shout was like that of Potiphar's wife-it was to alert or trigger immediate action. "Send in you sickle and reap for the hour to reap has come."* **HAZAD** *The way this is initiated links the angel-perhaps Michael with the act of judgment and in this connection with its initiation "going out" from the temple* **NAPAQ** *may be an earthly act of repudiation because the Antichrist has polluted the temple. Thus the call for Russia to act against the Beast is triggered as a result of the broken treaty protecting Israel's faith.*

And He who sat on the cloud threw His sickle upon earth and the earth was reaped. *This reaping was the reaping of the believing saints and it was a worldwide reaping. This event probably precedes the Babylon judgment which was predicted by believers before they were taken home.*

And another angel No.5 went out or was instructed to go out or was translated from the temple in heaven and with him there was a sharp sickle..

And another angel No.6 went out from the altar(*In heaven there is only one altar-that of incense-so this angel answered to the prayers of the saints and he is associated with dramatic judgment.*) And he had **sultanate authority** over fire and he screeched in a great voice to the one who had the sharp sickle with him "Send in your sickle and gather the bunches of the vineyards of the earth because the grapes or the counting tables are large" **DARBI** *The angel with the sickle had waited and waited. Judgment hung over the earth for a time but until the incense of prayer from heaven and earth demanded it no action came-but with great speed and dramatic "shout" this action took hold*

And the angel5 cast his sickle upon the earth and he gathered the vines of the earth and cast them into the great winepress of the wrath of God.

And the winepress was caused to be trodden [Interestingly the word is **DAISH** in Aramaic-*is the end of Islamic state in this context?* Outside the city (of Jerusalem) and the blood from the winepress came out to the point of restraint (bridle of the horses) for 1200 stadia or 150 miles

The consequences and fall out from this engagement are restrained 150 miles from Jerusalem. That means that the final struggle with its epicenter at Megiddo is halted at Damascus and just inside the border of Egypt and it engulfs Lebanon & Gaza.

CHAPTER 15

40 PARENTHESIS (11)SEVEN ANGELS WITH THE VIALS 1-4 *The wrath of God is finished with the last 7 vials. 2. The transparent ardour of saints and above that the martyrs and above that the praise of angels and heaven's choirs. The great moment where ministry ends and judgment takes hold had come*

And I saw another great and wonderful sign in heaven -seven angels that had upon them seven final plagues **MAHOTHA** [*In Exodus 9.14 they are the severe plagues following hail which are God's final thrust against Pharaoh*]. *The reference is exactly Plague 7 and 7 is of course the number of completion so God is dispatching*

the final vials of his wrath.] Very few even among theologians believe scripture when it says the wrath of God is finished, consummated, has achieved its end in the judgment of mankind in the plagues. The last judgment represents the justice but not the wrath of God. Micah 7.18 "He retaineth not His anger forever"

And I saw exactly a vitreous sea coloured with fire and those who prevailed or were victorious **ZACAN** or prevailed over the beast and over its image and over the number of its name who stood above separate from the sea of vitriol and there were above them again cithern or lyres. *John describes the Spirit filled transparent church of the heavens and the martyrs above them and the praiseful choirs above them all.*

And they sang the song or belief or subject of glory of Moses the servant of Eloha and the song **THASHBOTHA** of the Lamb and they were saying "Very Great and astonishing –appearing in marvelous fashion are your works of service Marya Eloha-your just and true works rule or paid off or contain(as a situation)." *The comparison is to be found in the late but very fair and righteous intervention of divine judgment. Moses speaks of the "flashing sword of judgment" at the point "when He sees their strength is gone". The ten plagues seemed a lot to go through but the Exodus and the death of the firstborn came on relentlessly and in a night God's judgment fell.*

Who will not fear you and glorify your name 'because you are alone holy therefore all the nations will come and will convert in worship before you because You are straight rapid in judgment and bring things out well **THARATZ**. *The universal agreement that God alone could bring things so immense to a proper conclusion is the commendation and core of the praise of the nations. Thus the Lord becomes for them Shiloh-peace.*

41 SEQUENCE (4)15.5-17 And from after these things –*John is now telling us that he is viewing them before and he is given a view of the sequel.* I looked and the temple of the tabernacle of the martyrs' testimony in heaven was opened.

And there went out seven angels from the temple who have with them the seven plagues –at the same time they were wearing pure bright linen and bound around the chest **KHADIA** with a band of gold. *The chest signifies joy and unity –Easter joy-they had plagues for mankind but they were leaving a scene in heaven full of satisfaction and song. This is the situation afterwards when the real judgments are imminent-the future perspective and the martyrs are overwhelmingly satisfied-this is not just relief –it is holy harmony and brings great praise of God.*

42 PARENTHESIS (12)15.7-8 7. And one of the four living creatures gave to the seven angels seven vessels full of the anger of Eloha who is living to the eternity of eternities, Amen. *As in 5.8 John Gwynn's Apocalypse has "Phials" The flat bowl like cup served two purposes-it was a libation and it was a funerary urn. The bowls were significant of libations of wrath that mankind must consume and signified death.*

And the temple was filled with clouds of the Glory of God and of His power and no one could enter the temple until the seven plagues of the seven angels were accomplished. *The only parallel cases were when Solomon dedicated the temple and when Isaiah was called and the house on earth shook and its courts were inaccessible. Clearly the martyrs had been using opportunity to plead for the consummation –but now God in His Shekinah was exercising all his power and heaven stood in awe of this final divine handling of the earth’s rebellion.*

CHAPTER 16

This chapter refers also to the Rapture-which is repeated not for its position but as a warning in context of (1) melting flesh (2)war involving Europe (3)The “throne of the beast”(Rome) judged and (4) The Levant becomes the setting for Chinese mass military thrust and(5) frenzied diplomacy prepares for Armageddon(6)demons are to be involved with this final war (7) A fire storm followed by tsunamis and a huge earth shaking as referred to in the OT day of the Lord occurs (8) Rome breaks in 3 parts and international cities fall and islands are permanently swamped, and the globe’s face altered. Men refuse to repent despite all-being harder than Pharaoh in the cruel slave state of the final empire.

43 FIRST VIAL 1-21 And I heard a great thunderous sound or speech from the temple that said to the seven angels “Go away and pour out the seven phials of the vehement anger of Eloha on the earth.” *The command was God’s and it was absolutely clear and enforced by the loud and stern nature of His speech as also by its brevity-only 8 words in Aramaic of which the operative one is “pour out”- **ESHED** which is a cognate of “wormwood” or poison. The name CHERNOBYL means “wormwood”. It would appear that the outpouring is of a destructive nature. God did not take lightly His capacity to destroy for with the bodies of many the souls and eternal hope would also be gone. But the Spirit in the earth discerned that there was terrible rebellion and godlessness-the earth was ripe for judgment. And the first angel went and poured his vessel on the earth and there were sad and dangerous **BATHOA** gangrenous heated **CAHABANA** sores **SHOHANA** upon men who have on them the mark of the beast and those who are converted to worship his image- Literally “His character” or “His **SULAM**”. The parallel is Daniel 3 and the image in the plain of Dura. It is clearly the last representation of the final kingdom of the earth-apparently a development of Europe’s dream. The connection between a phial and the ground and cancer like sores is now understood. This compares to plague 5 under Moses*

44 SECOND VIAL 23 And the second angel poured his phial into the sea and the sea became exactly dead and every living creature **NEPHESHA** in the sea died.

There is no known chemistry that will render the sea toxic so widely but if we are talking about the Mediterranean as the plagues localized to the Nile we can understand that a nuclear incident could render these inland waters a tragic zone and lend credence to 18.7 "All who earn their living from the sea will stand afar". The Greek has "blood" by which we are to understand "War in Europe".

45 THIRD VIAL 4-7 And the third angel poured his phial into the rivers and springs of water and they became blood. *This is precisely as the first Egyptian plague. This plague answers the unwillingness of Pharaoh to release Israel from slavery. In that case the answer God gave was the Exodus and Pharaoh pretended to a war which was averted. However the third phial results in "blood-letting" which I interpret as war.*

And I heard the angel of the waters saying "You are righteous who are the living existing one and has been ever existing and you are holy **KHASIA** A Shepherd (King) who has disclosed **DANA** these things. *The significance is that this is "God's horoscope" for that is one application-but it is not just a guess-it is God's early disclosure. God gave men a chance Pharaoh didn't have by telling us 2000 years before as the eternal God that in the latter day we could avert what the hardness of heart would do to us-we could repent.*

Because they have shed the blood of the prophets and saints (**SAHADA** added to **KHADISHA** of the text makes *martyred witnesses*) you have given them blood to drink **SHATHAN** or suffer and they merit it **SHON**. And I heard the altar (i.e. martyrs) saying "Yes Marya, Eloha (Jesus, Father) All controlling one **EHAD** includes the notion of "all regarding" and "all concealing" and "all following up" and "all embracing" and "all prevailing" [Greek "**PANTOCRATOR**" (meaning "victor" and "sovereign" 16.7 & 14) –real **SHARIRA** and righteous are your judgments.

46 FOURTH VIAL 8-9 8. And the fourth angel poured his phial over the sun and it had been given him [*The order of the phials admits of the process here involved to have been early and continuous*] to scorch the sons of men with fire conflagration or terror. The "sun" in Aramaic as in Hebrew means "minister" but the sun here ministers desertification and disaster. There is in our time something now feared-global warming-are we within this growing disaster era?

9. And the children of men were scorched or spread out **KHAMAM** with the great heat and they blasphemed **GADAP** *rowed away from and reviled* the name of Eloha who has the authority mastery or jurisdiction over these plagues and they did not repent to give Him the *glory* **TASHBOHATHA** *includes praise and belief so the issue is not worship in the first instance but even "belief in God".*

47 FIFTH VIAL 10-11 And the fifth angel poured his phial over the throne of the beast and its kingdom became darkness or eclipse and gloomy and they were eating **MALASA** their tongues *as a principal meal* from pain **C'ANBA** or sickness. *Are*

we looking at a “becoming” or gradual end of the latter-day Europe as a “kingdom” before it becomes a “sultanate” or just a total decline?

And they blasphemed the name of Eloha of heaven from their sicknesses and from their sores or skin disease **SHOKHANA** [skin disease or “melting”] and they did not repent of their works.

48 SIXTH VIAL 12 12 The sixth angel poured his phial upon the great river Euphrates and its waters will dry up so that the wide way will be prepared for the kings from the rising yellow or rising gold. **SHAMASHA** not **SHAMASH** Years and years ago we heard that in the end the “yellow man” will rule. No scripture says so –that is where the “sun rising” reads rather the “rising of the yellow or gold”. The connections are too manifold to miss. Another is “the lizard of the sun-cf. the Chinese dragon symbol” and yet another “the Alchemy of gold”. All these indicate the rise of China.

49 THREE FROG LIKE SPIRITS 13-16 And I saw [**HAZA** –to witness the appearance of “a form” or “apparition” and to “have a vision”-also “to watch” or “consider”] three spirits that were exactly like frogs **AORDA**–not clean-**DACIA** [not pure in heart or intent or kosher] from the mouth of the sea serpent or dragon and wild beast and prophet falsely designated and deceiving **DAGAL** Seeing spirits is not an everyday occurrence

For they are spirits of demons –those who enact signs **ATHOTHA**[celestial or alphabetical as in digital] –they travel away to kings of the inhabited or productive earth **TABAL** to gather them to war of that great day of God the one who holds all in his hands(Greek **PANTOCRATOR**–“RULER” & “VICTOR”)

Behold I come exactly like a thief **GANAB**“ One who carries off secretly” . His blessing or grace or goodness **TOKBOHI** belongs to him who is awake watching **KHAR** and keeps his garments so that he does not walk naked and they will see his shame, confusion or disgraceful behaviour **BAHATHTHA**. “They here are the gathering angels presumably.

And he will gather them to a place or region that has been called in Hebrew “Megiddo”.

50 THE SEVENTH ANGEL GREATEST EARTH SHAKE EVER 17-21 And the seventh angel poured his phial into the air and a great statement went out from the temple from before the throne that said “It is ordained or fulfilled or created. And there were lightning **BARCA** as we would term many flashes a lightning storm and thunder and there was a great earthquake **NODA** i.e.” trembling” the like which had never been since man lived on earth –it was in this manner or in its nature **HACAN** so great.

And the great city became three in number or sections and the cities of the nations or gentiles and pagans fell and Babylon the Great was recollected or called to mind

DACAR before Eloha to make it a parable or demonstrate to it the cup of the wine of His inflamed anger and His incensed wrath

And “every” island *as maritime islands-Genesis10.5 and “fine dust” Isaiah40.15 fled (“as from drowning” for the world would be awash with tsunamis) and they were not found. It appears the entire world was reshaped and islands became a thing of the past. The effect on Greece for instance would be profound*

And great hail exactly as a talent fell from the heavens upon the sons of men and the sons of men cursed God on account of the plague of hail because His plague was exceeding great. *The word “exceeding” also means “happy pleasant” in that it was the full force of God’s judgment-it was like the flood followed by icy rain. This hail could be considered very “costly” because of the effects. Pharaoh temporally repented but men of the latter times will not.*

CHAPTER 17

51 BABYLON THE LONELY HARLOT IN DENIAL 1-11 *Political fornication-with prejudice to democratic governance. 2.The insanity of clinging to Europa. 3.The wilderness view of Europa’s sin log-she is “red”4.Europa and tax, suffering inflicted, precious stones or saints –her best ancient decoration 5.An early devotee of Mithras and later of Luciferianism 6.Nations who surrender to Europe engage in new war preparation in which Rome itself is ruined.*

And one of the seven angels who had the seven phials came and had words with me that he might say “Come after me and I will give you a vision of the judgment /lawsuit of the harlot or prostitute who sits on many waters.” *This is an extended matter and consumes two chapters of the Apocalypse. It is a matter of great importance.* For with her the kings of the earth fornicated - all of them who dwell on the earth have been drunk from the wine of her fornication. *All of the deficits of drunkenness are to be attributed. The whole earth was satisfied, full of praise for her, out of mind and not thinking straight on her account.* And he brought me to the wilderness in the Spirit and I saw a woman who sat on a red dyed **SOMQATHA** *[the beast was natural colour but it was dyed or coloured differently by blood]* wild beast. *We seem to be owed the explanation that the beast had been to war or had been through a great kill.*

And the beast was full **MILIA** *(a) this tailored completion and satisfaction meant the beast had adopted all the names or “god titles” of the earth.* of the names of blasphemy and had in existence on it seven heads but **DIN** ten horns. *(b) The beast was secondly in its final state satisfied but exhausted as it wandered the wilderness. The Euro regime is prophesied to be a vicious empire and one ending up with ten toes and in exhaustion.*

And the woman *[Europa in the classical Greek myth]* who was alive-she was wearing and had put on purple and scarlet *[The colours of supreme rule]* that was gilded **DESAB** with gold *[the old Roman trade tax lustralis collation or χρυσασταργοριον]* and precious stones *[literally good or grace stones]* and pearls *[the*

*stone of suffering]*and there existed a gold cup that belonged to her in her hand or power [*again this speaks of her power to tax]*and it was full of abominations and filth and fornication. *The ultimate Europe had previously had an ornament of those who suffered and been a center of the proclamation of the gospel of grace but finally it was stove full of the uncleanness* **THAMAWOTH** *of heresy or* **BDELUGMA** *–of the filth* **SHIBA** *of fornication [The latter word has its root in “rejection” or “broken pledges”. So the woman is found in her ruined wandering state of spiritual and moral bankruptcy]*

And high on her brow between her eyes was written :

(i) Mystery, Initiated knowing speaking deciding-she is the mystery.

(ii) Great Babylon, She is the great end time mix of nations & languages iii Mother of harlots.

(iii) She brings forth idolatry for which prostitution is a metaphor.

(iv) and mother of the filth of the earth. She is the one who by her disavowal introduces things not kosher to God- in particular as to His will and word

*It would appear that mystical ritual followers rule Europe in her last state and that they incorporate idolatry not a simple secular alternative. And I saw (or)had a vision of the woman that was drunk from the blood of the saints and the blood of the witnesses of Jesus and I was astonished with a great judgment or lawsuit or judgment or indeterminate decision when I saw her. John was at the time of the vision in what we might call a stunned state-between wonder and astonishment. How could the Jews be so ill dealt with in the course of the woman’s history and the Christians equally be so dealt with? At the point where John looked he was shocked-astounded. And the angel said to me “Why are you astonished?” I will tell you the “mystery” of the woman and of the beast that bears her that has seven heads and ten horns. Clearly the mystery of how Europa whom John may have known about from classical legend is now being given its prophetic significance by God’s angel. The beast’s horns were puzzling as was the ferocious action it had undertaken. The woman’s very co-existence and royal pretensions and her splendour were also strange. The beast that you saw had been and **is not or is not near(now)** and is ready or prepared to come up from the sea and is departing or being led away to destruction and those on the inhabited earth will be astonished-that is those whose names are not written in the book of life from the laying of the foundation structure of the world when they see the beast which was alive and is not near **LOTH** or present and is approaching near. *This exposition is timed. It speaks of people who are condemned to live in the time when the beast makes its final approach. The godless will wonder at the rise of Europe in its final state. Those who are conscious of the power of God and of their election and part with the Lamb slain from the foundation of the world will not be so astonished for the rapture will spare them this vision.**

52 THE VITAL NEED FOR WISDOM 8-11 Here **HARKA** at this point in the explanation is the meaning **KHONA** that belongs to him who has wisdom. The

seven heads are **seven mountains** exactly where the woman sits as a married woman quietly enthroned and established upon them.

And from the seven kings there are five fallen and one that is coming and there is not yet another different one who has come as yet [οὐπω Mark13.7] *The angel had just mentioned the creation of the world now He is referring to the matters of the end of the same.* And when he comes a little time is given to him to stay or wait a little time. *The explanation fits with Julius Augustus Tiberius Caligula Claudius and the current Nero followed by a short reign-that of Galba and also with the Assyrian Babylonian Persian Greek and Roman empires followed by the Eastern at Constantinople and the final revitalized Roman empire. The latter accords with the dream of Daniel and Rome ancient and modern is at the core of both aspects of the prophecy. Babylon fell precipitously in 538BC , Persia ruled by satrapies till 490 when Marathon put paid to its expansion but it rather ran out of energy and was ready to fold up under Alexander of Greece –with his early in 327 death his empire divided in four. Rome has been around throughout NT and Christian history and its fall will be a harbinger of Christ’s rule. There is a distinct comparison to be made between the days of Belshazzar and the end of modern Europe as Rome Redivivus. And the dragon or sea serpent and the wild beast that he brought about and that is not near and he is **the eighth**. And he is in accordance with, by itself, of its own accord or separate from the seven.*

53 THE TEN HORNS 7 DEVELOPMENTS IN EUROPE. 12-15 And the ten horns of the beast are ten kings –those who as yet have not received a kingdom but accept bear and agree (7)sultanate authority exactly equivalent to that of king. *The term “king” accords with the idea of a “commission” and commissioners who act in place of national authorities.* The ten have only an hour of power- *a moment of mastery –before the empire’s dark midnight. Ancient Rome continued long after Galba and its later advance is sought not by interpreting 7 of emperors but of hills(i.e.) Rome as John also does and linking that with the 10 horns of later days or the end times.*

These will vote as one that they should surrender YIHAB(their) military force and (8)sultanate commission authority to the beast. *It is of great interest at this point in the 21st century to see the perception of a state develop in terms of just such a surrender and the fully- fledged umbrella of a European army now in the offing.* These will contest in war with the Lamb and the Lamb will defeat **ZAKEN** them because He is Lord of Lordship and king of Kingship and because His people are called and designated and faithful or believing. *The war that involves the Lamb is a contest of prayer and of action too if we move over to the call of Apocalypse 18.4. The involvement of Christians whether in prayer or in decisive action in Europe won the war of 1939-45 and ended the holocaust and believing people will be used in the last strife to toss the crown from the head of the beast.*

And he said to me “The water that you saw on which the harlot was established are assemblies[parliaments] and cities of people and languages.

54 THE HORNS TURN AGAINST THE BEAST 16-18 And the ten horns that you saw on the beast –these will hate or emaciate **S'AN** the harlot and desert ,empty and devastate her **HARVA** has a *radical* in the word “sword” and it would appear that armament strategy that is now in the offing is the last straw and will engage Europe to her ruin and so the horns devour her flesh and burn her with fire. Europe’s Babylonia is running to ruined.

For Eloha gave or surrendered to their hearts’ desire to act as servants of his will and to act in their single **HAD** consent or vote **KHABAB** and to surrender **YAHAB** their kingdom to the beast-likewise (or) that the theology(words of God) might be completely accomplished. And the woman that you saw is that great city(Rome) which has a life of its own –rule over the kings of the earth.

CHAPTER 18

54 SEQUENCE FIVE BABYLON FALLS -LAMENT(18.1-24)*1.The stern divine call for exit from Europe. 2. Europa’s sin “touches” heaven.3. Europa feels no loss of the godly. 4.The trauma of judgment. 5. The luxury of Europa and her lead in bondage 6. The hour of her judgment 7.The Empire without a future.*

And from after these things I saw another –different –angel who descended or returned from heaven who had great authority[of the “sultanate” sort] and the earth was enlightened from his splendour boast song or belief **TASHBOHATHA**

And he shouted in a great voice “Great Babylon is fallen and has become the abode **MAATHARA** [literally “the place to remain” or the “monastery” for demons] and a prison **NATORTHA** [“safe place” or “”guarded place”] to every spirit that is not pure **DACITA** [set apart] and is detestable[**SAAITA** foul or ugly].” *Babylon is described by John as a foul monastery-if one could imagine such a place-a place where those who join, stay and become more and more unlike the Lord-corrupt and influenced by demons when God’s people are taken home in the out-redemption of the Parousia.*

Because she mixed **MAZAG** [It was Jewish custom to mix wine with water-to prevent drunkenness- this mix was highly inebriating] the wine of her fornications for all nations and the kings of the earth fornicated with her and the merchants **THAGARA** [traders-procurers (cheats) and those who document trade] have become rich from the power [**HI’AA** vigour –virtual force-e.g. attracting and retaining] of her infatuation [xyn4 mad affection-the idea of insanity prevails as in drunkenness logic goes out the window].

And I heard another voice from heaven[The former had called saying “It is done” in the context of the decision to allow a solemn judgment to proceed-it said “It is done!”] that said “Come out” **POQ** [“split” or “break” or “sever” making a noise like the noise of a thunderbolt “rupture” and “shatter” are other renderings]. from within her *My people* lest you share in her sins that you may not receive of her plagues.” *We are moving in this chapter within the Heptad or the*

final seven years preceding Christ's rule so the voice is not recorded in the post rapture period but relevant to God's enlightened people who are involved with the "beast" or super state of the Apocalypse. The term **POQ** is a very strong one. Lest you share **SHATHPOP** ["be partner" "participate"-this is a call to end "intimacy" and to not be in the family of the prostitute whose spell and wine deceive]in her sins and that you may not receive **NASAB** ["receive" or "capture" as a disease or "marry into"] her plagues **MATHOTHA**.["strokes" "blows" "burdens"].

Because you have the sins in her have touched **DABAQ** [The term is used by bookbinders. So her sins are written in heaven. Her sins attach to the martyrs in heaven. Her sins press heaven to act-the Greek has *κολλῶ*-meaning her sins "have been" welded to and inlaid in heaven-they are long overdue judgment] heaven and God has called to mind her evil. God's word **DABAR** is as in Genesis 8.1,21.1,Ex 3.16, 4.31, 13.19, Psalm106.4 –God has planned to visit on Rome her sins before he returns to Israel. This is absolutely vital to understand. He visited Egypt's sin after 400 years and that of the Amorite after 600 years and He has left the final visitation of Rome for now 2000years. Europe has known great grace but will fall under great judgment.

We stay with "other voice" which after this significant statement for the people of God has a further two statements which appear to be addressed within the Trinity by Marya to Eloha-certainly this "voice" calls for "double payment" and "double mix" of wrath. What are these?

Pay her also exactly as she has paid and double to her for her deeds in the cup that she mixed a mix for herself mix double. In Aramaic the word "pay" **PAR'A** is as the word "Pharaoh". No word suits vengeance better than God's wrath on Pharaoh for the death of Hebrew children and for the persecution of Hebrew slaves. The second word **'APP** has to do with "double wrapping" or even "two sword blows". It is clear that as a set of nations Babylon is judged and again Babylon will be judged when the Lord Himself comes again to judge nations-so literally twice. Rome is represented as "burning" and those who are separated as in the parable of the sheep and goats in Christ's judgment also suffer in the "fire" of divine wrath.

For that in which she glorified her soul and exalted herself so give **METUL** [the word means "mass" not give in the normal sense] her exactly the same suffering and sorrow for in her heart she said "I sit the Queen and I am not living as a widow and I do not envision sorrow. Suffering **SHUNAQA**["torture" or "torment"-in Hebrew "revenge"] and sorrow **ABALA** [mourning over death]is coming. We see Europa saying "I am not going to get bothered if people leave me-I am not going to be a widow. I am not bothered about those I killed!. Europe is in the habit of asking others to acknowledge atrocities but no civilization on earth has more victims to its roll of bloodguilt than Europe. Well she might act more humbly before God. Pure celebration is not in character for this Mistress of nations.

In one day this weight will come upon her-plagues of death and mourning and famine **CAPANA** or hunger [*as the brothers who came to Joseph-Europa will end up in “want of food-something now almost inconceivable-but remember the “butter mountains” which were in response to the Second War extremities”*]and in fire she shall kindle **QADAN** or burn. Clearly loss of life-extremity of food supplies and the solemn effect of (nuclear?)war are reserved for Europa.

55 WOE, WOE, WOE, OVER BABYLON ON EARTH-JOY IN HEAVEN 9-20 And the kings of the earth who associate with her as a harlot [*Like the kindred expression used by Isaiah Jeremiah & Ezekiel of Israel this usage primarily involves prejudice to their founding faith and to the moral probity and godly principles upon which these states were established*] will lament over her miseries **BAKA** and mourn as for the dead **RAQAD** when they see the smoke **TANATZ** or fumigation of her burning. *This appears tough until one recognizes that John knew of the Christians being burnt as torches in Nero’s gardens. Retribution has lingered for 2000 years. Nero himself burned Rome in NT times but this event has another latter-day context.*

When they stand (gazing) towards or facing (*either really or virtually on T.V.-today generally people from all over the world stand in public places gazing at screens in horror of events far distant*) from awe of her punishment...And they will say “Woe, woe, woe-the city-Great Babylon-the mighty ‘**ASHAN** [superior] city-because in one hour **SH’AA**[instantaneous] she has come to judgment.”

The merchants of the earth will weep and grieve over her and from their cargoes or “taxed cargoes” **MOCAL** there is no one who buys again subsequently (Taxed or imposed) cargoes of *1gold and 2silver and 3precious stones and 4pearls and 5Byssus or best linen and 6purple and 7silk cloth 8 of scarlet and 9every building wood QIS -10 of fragrant balsam and every instrument/11 utensil of ivory –or every era SHANA and12 of precious wood, 13 brass14 iron and 15marble. And 16 cinnamon and 17spices and 18myrrh ointment and 19 frankincense and 20wine and 21oil and22 fine flour and 23 sheep and 24horses and 25vehicles and the bodies and souls of the sons of men. Of the 27 products or raw materials the “bodies and souls” of the young is the one that determines the uncaring secularity and spiritual captivity entailed.*

And your **father’s** precious fruit of your own soul has left you and everything heavenly and best **SHAMIN** and celebrated or praiseworthy **xyb4** has left you and you will not see them in the future **THOB** –there had been spirituality and great things but within the Europa of the future they are gone-gone forever!

And they will not find them . The merchants of these things who became wealthy from her will stand opposite from fear pious or meekness **DAHALTHA** of her punishment (i.e. that it might fall on them) while they are lamenting and weeping on account of death.

And they were saying “*Woe, woe* –the great city that put on new garments **M’AATPA** of fine linen and purple and scarlet and gilt with gold and precious (Peter) Cephas stones **C’AAPA** and pearls.

Because in one hour, wealth is lost. **SARAQ** [emptied-stripped like garments lacerated by combs]

For precisely this also every manager or navigator **MIDBARNA** of a ship and everyone leaving in a ship to –one or other destination and the sailor(or captain) and everyone who works hard at sea stood far off .

And they lamented when they saw the smoke of her conflagration **YIKDANA** and they said “Who is akin to that great city?-she is one of a kind”

And they laid down their heads to earth and shouted as they lamented and mourned in pious sorrow saying “Woe, woe the great city by which those who had ships at sea became rich-in one hour their magnificence or cargo value (their profit margin or advantage) is destroyed.

Cheer up or rejoice as at Passover **PATZAH** [*The word Passover and the word “Rejoice” in Aramaic are the same*]over her (1) Heaven and (2) Holy ones and (3) Apostles and (4) prophets because God has judged her as you judged her. *The fall of Rome is like the fall of Egypt to heaven.*

56 BABYLON’ & HUMAN GOVERNMENT AT AN UTTER END 21-24 And one of the angels took a mighty stone –great –exactly like a millstone and threw it in the sea and said” In this way with force **KHAPA** will Babylon(the gate of god) be thrown down(**SHADAN** excommunicate/removed /repudiated/hurled down)-the great city will not exist in the future **THOB** *Nothing could be clearer than the angel’s millstone demonstration of the dramatic splash and sudden disappearance of Rome and with it the last empire.*

And (a) the music of the lyre or guitar and trumpets and (b)high pitch **ZAOQ** of quality singers **ZANI** will not be heard in you in future **THOB**.

And (c) the illumination of the streetlight will not reappear for you in future **THOB** [*After most disasters the lights come back on-even after the blackout of the second war the lights returned-not so with Rome*] and (d) rumour of the bride will not be heard in you in the future **THOB** because your rich (fraudulent) merchants **TOGORIKI** had been the intensely proud and oppressive ones of the earth **RORBANIA** .-because by your sorceries **BASHAITZI** [*cut throat ways or mystery arts*] you corrupted or falsely informed **T’AN** the nations.

24. And in her was found invented **MASHCATZ** the blood or beheading of prophets and saints who had been killed on earth. *The fact is that the first persecutions and beheadings were in Rome-Paul was one of the victims. This inhuman and cruel practice may now be attributable to another militant fanatic group but it was first Roman as was crucifixion. The writer takes the blood guilt of the last empire back to the very fount of its inhumanity and beastly murders.*

Every empire has fallen-Europe is no exception but it gives way to the Kingdom of God and that makes its last stage very different. If God is marching on and if

Satan knows he has a short time we can look for the terminal signs today and expect the terminus itself to follow the pattern laid out in these crucial chapters of Revelation 12-18. The words of Jesus “Behold I stand at the door and knock; the bible clock of Israel’s statehood and security in accord with prophecy tells us the midnight call of Jesus is to be expected. The critical moral and spiritual disregard for Christ in the public and private life of whole populations continentally signed by war preparation and fear of economic ruin is a dangerous cocktail –and the message it sends out is that nations are on a precipitous career and the final “dawn of world redemption” to quote Eric Sauer has to be the best and only hope of tomorrow’s world.

INTRODUCTION 19-22

If the previous section is like a historical jigsaw and highly intriguing this section is so much more glorious and it opens up the heavenly view-the throne of God and the judgment and new creation and paradise of God in all its grandeur. It deals in magnitudes and mysteries sublime-the glory of God and of the lamb and the notable absence of sin and death and Satan and the ever festive and harmonious presence of a people redeemed from the earth ages to enjoy their redeemer and Lord forever.

CHAPTER 19

57 SEQUENCE SIX {19.1-20.2) HEAVEN’S JOY (1-10) And after these things [**HALIN BATAR**] I heard a voice [**QALA**] of many gatherings or companies in heaven saying (1) “Hallelujah, ransom and glorious praise [**TASHBOTHA**] and might be to our God.

Because His judgments are true and just because He judged the great whore that corrupted the earth in travail or heresy or pangs of death with her whoredom and He wanted the blood of His servants from her hand.” **Verses 1b to 2 constitutes a praise section.** This “life for life” accounting of God is precisely as in 2 Samuel 4.11

PARENTHESIS(13) 19.1FF And they said (2) “Hallelujah” a second time and her smoke goes up towards or unto the era of the eternities. *The smoke of Sodom ascended for some time and this judgment will proceed while the earth remains over the millennium. The earth has an end and the earthly evidence of the destruction of the whore is a terrible reminder that the Lord requires the blood of His servants while the earth remains.*

And the twenty-four elders and four living creatures fell [**NAPAL**] and bowed in worship [**SAGAB**] to our God who is settled or reigns or possesses [**YATHAB**] the throne saying (over and over) (3) “Amen, Hallelujah”.

And [*there was*] a voice from the throne [**KURSA**] that said “Praise [**SHABAH**] our God all those his servants and worshippers of His name-all of them-the small

[**ZAORA**-the small, the younger but this cannot mean “the feeble” nor “the base” nor “the discouraged”-it shows that in glory the Lord considers those who might feel they are not important but they are vital to God] **with the great!”-is this the antiphonal voice of Christ?**

And(4) I heard a voice exactly like many assemblies and exactly like the sound of many waters and exactly like the sound of mighty thunders... [**RAMA** –this name Jesus gave to John & his brother-a resonance and echo effect is entailed- it carries memories of the voice the Greeks heard when they sought for a sign]...saying “Hallelujah because He who reigns is Maryah God who has laid hold on, holds and possesses everything/everyone[The Greek has παντοκρατωρ “victor and ruler of all”]

“We rejoice and **have been** cheered or gladdened by Passover [**MATHPATZAH**] ; we give Him resounding glory [**SHIBOHATHA**]because the wedding feast [**MASHOTHA**] of the Lamb has come and his woman or wife [**ANATHA**] has made herself ready.” **Verses 6-7constitute a praise section.** Those in heaven at this juncture are giving praise as Christ takes full control at the end of the last revolt of Satan and prepares the Great White Throne judgment. The saints look back to Calvary as the first source of their joy with thanksgiving-an Aramaic passive details that joy-and they anticipate a gathering when they celebrate a new heavenly union in its fullest demonstration at the wedding banquet.

And fine linen had been given to her –pure and lightsome-for the fine linens[**BUTZA**-the scripture speaks of linen which bleached after being processed in water-byssus in like manner is harvested from the sea-both endanger the harvestmen] are the righteousnesses of the saints. The Greek views v.8 as part of the paean begun at v.6. It is third person and seems rather to be a comment in the Aramaic

And they said to me “Write” “Blessings belong to those living who are called to the shemitah supper [**MUSHTUTHA**] of the Lamb” and he said to me “These living or lifegiving words are the real/ true [**SHARIRA**]words of God.” *The Aramaic tells us that John had this statement given him by those who spoke to him from the vision-saints themselves [which is to assume that John heard the saints not only sing but explain some 1900+ years ago not in a pre-recorded message but live-it is almost beyond belief but the Almighty cannot be doubted-this truly is what was to happen over 2000 years later–so we see the significance of the angel’s interruption and statement about “truth”. The angel confirmed that the blessing and invitation originating in heaven is emphasized to be extended on earth as the gospel call.*

And I fell before his feet and I worshipped[face to the floor] him and he said to me “**No**, I am your living fellow or partner equal or colleague-I am alive and of your brothers –these who are living-theirs is the testimony of Jesus. Worship God. Increasingly for the testimony of Jesus is living or growing-the Spirit of prophesy. This abstruse statement is saying “Increase your honour for the Lord Jesus for the

witness is going to increase into the future as the Holy Spirit uses the word and this you see is the great future result.”

58 THE KING OF KINGS CONQUERS 11-21 And I saw that heaven opened and behold a white horse and He who sat on it **had been called ‘faithful and true’** and in righteousness He judges and makes war.

Conversely His eyes were exactly as flames of fire and on His head were many diadems and he lives and **His name is written that no-one knows but only He.** *So many names –one is even set down in the verse before but instantly we are told “no-one knows His name” in the sense that nobody has “power over Him”. The reason why God’s name is unwritten is that He is supreme and to be revered-but this name is written everywhere in scripture for he is Yahwe Elohe but none will speak it or can challenge His power.*

And He clothed him [**ATAPH**] in a garment sprinkled or bedewed with blood and His name has been called “The word of God”.

And the armies of heaven were following accompanying and cleaving to Him on white horses and clothed in linen white and pure.

And from their mouths sharp swords issued by which they will kill [**QATAL** *The Greek has παταξη ”smite”*] those **belonging to** [**L’** gentile nations and He will shepherd them with a rod of iron and he tramples under foot [*40d dash*] the winepress of the wrath of God who lays hold on and closes up all –[**AHID COL** *Greek παντοκρατωρ*]. And **L’** “for “Him a name exists and lives on His [**MANOHI** *cotton*] clothing over His thigh [**ATMATHA**] the name is written “King of kings and Lord of lords”.

And I saw another angel messenger standing in the sun or ministry[**SHEMESH**-*technically the “sun” is simply “SHEMESH”-the meaning is in full blaze of the earth ministering*] and crying in a loud voice he said to the birds that were flying in the middle or mediating sky [**MAZATH** –*the birds in this case seem to play their part mediating knowledge to man so they may well be seen as high flying birds but could well be satellites prophetically understood*] “Come gather to the shemitah[**SHEMITAH** *unsheathed*] supper of the great God.” This is the second Shemitah supper referred to in the chapter but it is very different. In the first. In the “Shemitah of the Lamb” we are unshod and dress very simply uncovering of all outer trappings and be ourselves. In the “shemitah of God” the sword is unsheathed and the final war of our era occurs with massive loss of life. To consume the flesh of kings and the flesh of **captains of thousands** and the flesh of **mighty warriors** and the flesh of **stallions** and those who **sit on them** [**YITHAB** *not RACAB* *the war horses when taken with their mounted troops picture modern conveyances upon which those mounted do not ride in the way of horsemen but merely “sit” or “settle” themselves*] and the flesh of free noble and ranked persons and of servants and of small and great. *The terminology bespeaks war and the context of the last war involves modern war equipment including aerial and*

satellite navigation and control systems. And I saw the beast and its armies [assuming Europe will establish a joint command –Germany currently is calling for technical military skilled personnel Europe-wide and in time a European army will be formed after Britain withdraws –this prefigures how the relationship of Britain with Europe will resolve(28Dec 2018)Britain will withdraw.]

And the beast was ensnared and caught [**ZOD**] and the false prophet with him –he who did signs in his presence by which signs he led astray [**TA**] those who received for life [**NASAB**] the image [**ROSHMA** sign mark engraving or token] of the beast and those who worshipped his image descended and were cast into the lake of fire which also burns with brimstone.

And the rest conversely were killed with the sword of Him who sits on the horse by that which proceeded from His mouth and all the birds of prey [**TIRA**] were satisfied or had enough from their flesh. *The aerial conflict resulted in an overwhelming slaughter*

CHAPTER 20

59 THE MILLENNIUM 1-6 And I saw another angel messenger from heaven who had introduced or brought with him the key of the submerged depths [**TAHOMAH**] and a great chain in his hand. *The Lord at the beginning of the Apocalypse claimed He held the keys of death and Hell [**MOTHA SHEOL**] This is another key*

And he grasped or apprehended [**LABAC**]the dragon-the ancient or antecedent serpent –he who is the swallower accuser and Adversary Satan and bound him for a thousand years. *Millennium. This vision given two thousand years ago is most remarkable for it speaks of 1000 years of history away into the future and speaks in the same breath of Satan who was at the time of the vision ancient beyond 4000years. It does not say that Satan was bound in John’s time because the persecuted of the ages are said in the same millennium to reign with Christ in his earthly kingdom for 1000 years and that rule has not yet begun.*

60 SEQUENCE SEVEN(20.3-22.21) And he cast him into the Abyss[**TAHUMA**] and fastened and sealed over the top of it that he might not again deceive all the nations . After these years it was allowed or conceded to liberate or free him [**SHARIH**] for a little time.

And I saw session seats[**MATHBA** which were placed for a sojourn as a cathedral] and they that sat on them and judgment was granted to them [**YIHAB** yielded]- and these were souls that were cut off or beheaded or indicted on account of the testimony of Jesus and for the word of God and because these would not bow to worship the beast nor his image[**TZALMA**–human form or even “coin” or “impress”] and they would not receive a mark over or high above and between their eyes or on their hands –who lived and ruled with Messiah for one thousand years *millennium.*

And this is the first [**QADAMITHA**—“first rank” and “former/ primary state”] resurrection[**QIMTHA**—fixed term—**continuance** of life] John is not just saying that there is a resurrection of these persons—he is saying that this is as the earlier pre-diluvian state of long life and those who live in it continue long to live and not just the saints who join Christ but those also who live in those time. This John understood the Lord to predict as the “golden era” or the “kingdom—hence the saints will “reign”.

Blessed is he/she and holy whosoever that one is that has part in the first continuance of risen life and over these persons the double [**TANINA**] death has no ultimate or supreme authority but they shall be priests of God and of Messiah and they shall counsel, consult or rule with Him a thousand years *millennium*. We are advised that those who have died and suffered severe persecution under the short era of the “beast” will rise again and have a special part in the rule of the Kingdom on earth. John is not arguing that every Christian will be back on earth as a king—how ridiculous would that be. He is being told that God’s reward for Tribulation martyrs is association over 1000 years on earth. The implication that the church goes through the tribulation without rapture does not follow nor does it follow that only martyrs of the last short ruthless period shall have this privilege—there are “whosoever’s” involved—those the Lord appoints—and it would appear Daniel is one for “he will stand in his lot at the end of days”.

61 THE JUDGMENT OF SATAN 7-15

And whenever that thousand years is completed Satan will be released from his imprisonment or containment

[**KHABOSH** life as a recluse]...

He will proceed as a soldier [**NAPTHAQ**] to deceive all the nations or populations in the four corners of the earth belonging to Gog and Magog to gather them to battle and what a number precisely as the sand of the sea. *These names currently mean little in terms of the great peoples of the earth. They could be hemispheres indeed but Gog does elsewhere appear in scripture in six contexts. 1Chron5.5(son of Joel, himself a Reubenite whose clan had land as far away as the Euphrates), Ez.38.2-3(Chief prince of Meshek & Tubal), Ez. 38.16-18(A prince of the Far North with a cloud of nations advancing against Israel), Ez39.1(I will strike your bow & arrows from your hand & you will fall on Israel's mountains & be food to carrion birds), Ez39.11Gog and his hordes will be buried to the east of the Sea(of Galilee) at “humming Gog”.*

And they ascended or went up to war [**SALAM**] on an open place[**PATHIQ**]where the door or seal was opened to allow this war] of the earth[The Euphrates plain at the beginning of the Millennium supplied a classic location where the eastern armies flowed west to engage in what is the 3rd World War still future as you read] and spied out & encompassed [**HADAR**] the city of the camp of the holy people and the city of the beloved and fire came down from

heaven from God and swallowed them. *This war of the distant future again involves Jerusalem and this time it ends abruptly with their nemesis.*

And the Devil (swallower stinger) their deceiver was cast into **the sea of fire and brimstone**... [*The sea of **darkness** is called Gehenna—so that is not the place. It is a place of “kindling” and destruction. The brimstone or sulphur suggest a volcanic disaster as at Sodom when fire descended and engulfed Lot’s wife and most of Sodom’s society who were never heard tell of again. The implication is that Satan hath an end... where that beast and false prophet **shall have been tormented [NASHATHNAKUN Hithpaal]** day and night belonging to the age of ages. The torment referred to is not continued beyond the existence of earth and sun but during human residence and into the era of the millennium but not beyond the Great White Throne which margins the ages of eternity. In 19.20 the others were thrown into the Lake of Fire and there they too perished prior to the Millennium. The heavenly judgement that rained on Sodom is typical of divine wrath and its finality. Because wrath is final and its objects do not recover we cannot speak of Christ receiving wrath—but must affirm He bore our judgment-death itself-atonement death.*

And I saw a great white throne belonging to the one who sits ensconced on or exalted upon it—from him—from his face the earth and the heaven fled [**ARAQ** vanish] and there was no position place region realm or domain [**ATHAR**] found to exist or be possible [**SHACAH**] for them.

And I saw the (1) **dead** great and small who stood or *rose in continuance [second resurrection]* before the throne and *the scrolls* were opened or had been open and *another different scroll* had been open which exists in continuance—(2) **that of judgment** and the dead were judged from those things that are written in the scrolls exactly in line with their actions. *The specific evidence is open to the guilty by this supreme and final court. The tragedy of the (3) **second resurrection** dead is that their very appearance is affirmative of sentence—the opening of the judgment scroll is similarly affirmative. The Greek has “book of life” where the Aramaic has “book of judgment”. The judgment scroll is the scroll of contention and verdict. It contains the principle(s) under which appellants are judged and from it there is no appeal.*

And the sea yielded the dead in it and Death and Sheol yielded the dead who were fixed within them [**DATZ**] and each single one of them was judged exactly according to their deeds.

And death and Sheol were cast into the Pool or Lake of Fire—this [**SANA** “*this sort*” that is the second death in the sense that such a “death” truly exists” and “continues to exist” of which God gave warrant to Adam when He said “dying you shall die” and Jesus re-affirmed with the words “Shall not **perish** but have eternal life”.] is the second death. John is telling us that death and Sheol are now no more in the sense that neither the prison nor prisoners continued.

And whoever was not found or discovered that was written or delineated...

[RISHIM supports ordained insofar as this judgment refers back to deeds performed as far back as 3000 years before]

We cannot establish fore-ordination on this text which relates those for a time raised to face their sentence after suffering long in Sheol well aware like Dives that their doom was writ...in the book of Life was cast into the Lake of Fire. The "Book of Life" is a final check and in it only the redeemed are written[Phil 4.3, Rev3.5, 13.8, 17.8 with Ex32.32,Ps69.28,Dan12.1] 21.27 in Aramaic simply refers to the "Book of the Lamb" which in the Greek is written "The Book of Life of the Lamb".

CHAPTER 21

62 THE NEW HEAVEN AND EARTH 1-8

PARENTHESIS(14)CHAPTERS 21-22 And I saw divine new[**HADATHA**] heavens and "new" earth for the "former" or "earlier" or "beforehand" preceding "prior" or "heavens and earlier earth had departed [**AZAL** gone away or "died" or journeyed] and the sea was never again [**LITHOHI**]This statement in Greek tells us that "the sea is not still $\epsilon\tau\iota$ " and uses the word $\kappa\alpha\iota\nu\omicron\varsigma$ ["new" i.e. "spanking new" not "renovated" or re-phased" as opposed to $\nu\epsilon\omicron\varsigma$. At this point without the water of the seas we are bound to contemplate an earth designed for newly equipped inhabitants whose safety continuance did not depend on continental waters.

2 And the divinely [**QADISHTHA**] holy city New [**HADATHA**] Jerusalem-I saw it that it was descending from heaven from the side of God-that which had been a preparing [*participle*] exactly as a divine bride divinely adorned [**TZABATHTHA** "as a city with embellished buildings or a bride with adornment of dress and rings-grand cities in ancient times were spoken of as "brides"] for her husband.

3 And I heard a great voice from heaven that said "Behold the moving tent of God is being settled with the children of men and He dwells with them and those (city)people [**AMA** usually **DAMADINA** 'AMA city dwellers] who shall belong to Him shall be the same(i.e. people with and near to God and of one continuance like Himself. God is with them and will be their God. *The text assumes the solidarity of the people and the city. It is a city of absolutely steady population*

4 And he shall wipe away every tear from their eyes and death shall not be from now ever after and there will be no mourning for the dead [**ABOTZA**] nor rows and clamour of the populace[**ROBA**] nor sickness or disease [**CABA**] again on account of His presence. *The presence of God shall by its power and provisions cut out all sources of illness and death and anger and division. The Greek has "for the first things are passed away" which seems to be an explanation taken from verse 1. The true reason is the wonder of the Lord's presence.*

5 **And I walked** away or went off [*John appears to have walked out of the vision and so was able to be told to write since his trance or vision ceded to penmanship*]and He who sat on the throne said to me "Behold I make all new" and

He said “Write-these living words are credible and truly real. *The reality and trustworthiness of the words of God are affirmed by Himself.*

6 And he said to me these (elements, substances, origins, **creations**) are; I am Alpha and Omega-the origin and completion; I shall give to the thirsty from the fountain of water of Life.

7 And he who is victorious or overcomes shall inherit these things and I will be his God and he shall be my created son.

8 Conversely to the timid [**QANAT** *those who shrink from judgment and won't face the fact it has to be and has to be averted by grace*] and those unbelievers and the evil and the polluted [**MASOB**-*whether with bloodstains or crime or abominable relationships*] and killers and sorcerers with enchantments and fornicators and those who are heavily into serving idols and all liars –their portion or segment is in the lake conflagration of fire and brimstone –what **AIDA**] that exists-the second iterated or deuteron-death.

63 THE NEW JERUSALEM 9-27

And one of the seven angels –those who had or continued to have the seven vessels [*whether jars or dishes-note that although they are reported to be poured out in wrath earlier this outpouring is yet future.*] that were full of the last plagues diseases or slaughters [**MUKHOA**] and he spoke with me saying “Come I will give you vision of the bride who belongs as wife to the Lamb.

And he led, escorted translated me [**ABAL**] in spirit to a great and a high mountain and the divine holy city [**MEDINTHA QADIAHTHA**] Jerusalem which was divinely coming down [**D'NAGTHA**] from heaven from the contemplation or fixed gaze [**ZOD**] of God. *It is glorious to notice the fascination of the Lord with the city-it is His Son's bride and his joy.*

And there existed or lived for it the glory of God and its light was exactly that likeness of precious stones exactly as jasper and its appearance exactly like crystal. And there lived belonging to it a wall great and high and there existed in continuance twelve gates [*the continuance suggests an ongoing work of gathering in*]and at the gates twelve angels and those names that were written continue to exist –they are the twelve tribes of Israel. *In the light of the Roman persecution and the fall of Jerusalem which John had experienced this city's existence was the greatest vision John ever had-and to think that God had written the names of the tribes on the city that He himself was so keen to show off-the very apex of His new world-with the long- persecuted people commemorated in its gates.*

And from the east three gates and from the north and the south three gates and from the west three gates.-these continued to be open and would receive all the people of God prepared for the city.

The wall of the city has twelve foundations to it and on them twelve names of the apostles of the Son-builder[**BARAH**].*As the doors marked the Jewish history and*

spiritual journey so the foundations went to some depth and testified to the work of the apostles of Jesus. How the foundation names were displayed we do not know but the city is not described as settled on earth. The names were not alone on the foundations but the apostles were in that heavenly place

64 THE CITY DETAILED 15-21 And he that was speaking to me had a divine measuring reed of gold on him for measuring the city and its wall. And the city was laid out foursquare and its length was exactly as its width and he measured. The city with the reed to twelve thousand stadia-its length –and its width and height are equal.

And he measured its wall-one hundred and forty- four cubits by the measure of a man –that sort which the angel has. *John is telling us something not just about the city but about the angel that spoke with him-his body measurement is of the same sort as ours. The size of the city is 1500miles square. Its walls are not the principle feature but their foundations of which there are twelve strata.*

And the building [**DUMASA**-building material] of the wall was jasper and the city was (built of)pure gold with likeness to pure glass. *The gold of the city is not after the 18/22 carat sort but of a purity we do not find on earth reaching a standard of complete transparency. That should make the city events easily seen had there been current activity in the city-but John records none.*

And the foundation of the wall is embellished with precious stones; the first jasper(red yellow & blue) and the second sapphire and the third carnelian or chalcedony(brownish red) and the fourth emerald.

And the sixth sardius (red with white veins)and banded onyx, and the seventh a stone of gold, the eighth pearl (ice white), the ninth topaz and the tenth chryso-phrasus (green gold), the eleventh blue jacinth and the twelfth purple amethyst. *I include some comments from my Greek based commentary below relating these stones to Christ our city's one foundation.*

Its Jasper reflects Christ's eternity; its sapphire His divine being; its chalcedony – the Chalcedon stone – blue & white – His divine & human nature; the emerald – His courage & cheer centered on heaven's emerald rainbow encircled throne of grace; the sardonyx (flesh-coloured stone) His incarnation; the sardius not the carnelian (i.e. the male not the female stone) his love and blood shed for us; the chrysolite – golden transparency – his heavenly perfection; the beryl (aquamarine) stone of Spain – His conquest all the worlds troubles; the topaz – - historic orange stone of divining – His omniscience and absolute understanding of the Father's heart; jacinth the resurrection stone (from the youth that legend tells arose from blood) – His glorious resurrection; and finally amethyst – His temperance and life unmarred by temptation. "Tempted in all points – without sin!" So we leave the mountain view of a kingdom founded on the life and death of Christ – to be reflected fully and eternally in the city home of saints – the Holy City. The bride is rightly proud of her husband.

And the twelve gates had a single pearl each and every single one of the gates was from one pearl and the street of the city conversely was of pure gold exactly as if it had glass in it.

65 THE LAMB SOVEREIGN AND VICTORIOUS 22-27 And I saw no temple in it for Maryah God who holds or controls everything –he is its temple. *This is a further reference to divine sovereignty which in the Greek is marked by the term παντοκρατωρ.*

And for the Lamb and for the city there was no enquiry or discussion of dispute or need of sun [**METH B'AA**] and no moon to brighten it for the glory of God illumines it and the Lamb exists in continuance as its lamp. *The glory of heaven is the Father and the Son is its mirrored light.*

And the nations are actively walking around in its light(God's glory) and kings of the earth bring[**MITHIN**–arrive with armies of people or carry fruit or best flow in like water in an aqueduct] their song or music[**TASHBOHATHA**] into it . *We need hardly ask what John saw in the city for it is given clearly-he knew that the people needed no sun or moon but God's glory He experienced on the Mount was there. There were multiple choirs singing on this occasion and music everywhere.*

25 And its gates would not have been closed through the day for there shall be no night there.

26 And they shall bring to it like the steady flow of an aqueduct and the fruit of trees in their season the praise and the rich preciousness of the nations.

27 And there shall not be there anything that defiles- any **bloodstains** [**MASIBOTHA**]

or untruth [**D'GALUTHA** treachery or secrecy]but those written in the book of the Lamb.

CHAPTER 22

66 WE SHALL SEE THE LAMB 1-5 And he showed me a pure river of water of life(living water) also clear exactly like crystal and it issued out from the Life throne or Redeemer Throne [**CURSYAH**] of God and of the Lamb. *This is a final variation on "I saw" for here there is "declaration" and "vision"*

And from the centre of the street from this place and that above or over the river the tree of life [**SISA**-used of a stiff or strong woody living tree and also of a plank carved from the same-did this bridge the river?] which produces twelve fruits and **on every month** [there is time in heaven and the months may mark remembered or renewed festival times once set on earth to keep God's people close to Him] provides its fruits and its shaking leaves –its rustling or clapping leaves[**TARAPH**]are for the healing art or medicine of the nations.[**ASIOTHA**] *The Greek has "therapy" and it is clear that such a concatenation of peoples as are to be in heaven will require this tree. This is a statement without disguise and it links with 21.24 which makes clear that the Kings and citizens of earth*

bring their separate songs into the heavens. This speaks of memory. Memory is not obliterated and here is the specific evidence. That means that there has to be a remedy for any caution or coolness that national solidarity in glory might evoke. As on earth so in glory the Lord is willing for difference and aware of the possibility of tension.

And there will not be any excommunication [**HARAMA** “curse” yes but that is obvious for Christ took away the curse-but John is speaking about the equivalent of church anathema-that dimension of difference or impasse will not occur] there in “Yonder Land” [**THAMAN** –John is thinking as he writes after the vision or demonstration of heaven as “Yonder Land”]and the Redeemer Throne[**CURSYAH**] of God and of the Lamb will be in it and his servants (all of heaven) shall minister to Him [**SHEMESH** as eternal sunlight].

And they shall have vision of His face and His name shall be over (the space) between their eyes. Heaven appears to be a place where the view of Jesus is everywhere and we constantly will see how our sovereign is living-it would appear to be like an everlasting view of the monarch on television-heavens glorious open channel to the throne. We shall be content to be marked by the name of Jesus-the holiest name in heaven-God’s saving name. Every time we look at a fellow servant we see the commitment made on earth and the unbreakable allegiance of heaven writ large.

And there shall not be night “Yonder Land” neither will the sun be needed or called for by their desire –neither lights nor lamps nor light of the sun and because of Mariah God who as their king for eternity [*The Greek “They shall reign forever” is redundant*] is providing them light. Again the remembered glory of the light of heaven is the Lord. His glory will be in every room of heaven-so abundant and wonderful and accommodating will it be “ In His light we will see light”

I’ve got a mansion just over the hilltop
In that bright land that is pure as gold
And some day yonder we’ll never more wander
But walk those streets that are pure as gold.

67 THE ANGEL SAYS HE IS COMING SOON 6-9 And he said to me “These words are to be trusted and true” [**MAHIMANAN WE SHARIRAN**]. And Maryah(Jehovah) God of the Spirit of the holy prophets sent His angel to show his servants what is provided to happen soon. *This is John’s comment and it tells us as Christians that this place and these experiences will hit us sooner than we realize. The angel emphasized that all God’s servants need this message.*

“And behold I come quickly”[**B’AGAL** with the speed of tumbling mountain torrents-as Amos says “like judgment torrents rolling down”-swift as death-quicker than “the breaking of the golden bowl” of Solomon. His blessing are for the one who watches preserves and remembers -so treasures the words of the prophecy

[**NABIOTHA**—the prophecy or book itself—the office of prophecy and the inspired words of prophecy] of this writing or book.

I am John who saw and heard these things and when I saw and heard I fell down to worship lowly before the feet of the angel messenger who showed these things to me.

And he said to me “Seer, no!” [Murdoch on Revelation 22.15 and also LXX of Joshua 9.7 “I live and continue as a colleague or fellow [CANATHED—a companion or support from which we get our “canon” one counted (as teacher among)] and of your brothers the prophets and of those who keep these words of this book. The familiarity of the angel with scripture takes us back to Joshua where the Israelites say to the Hivites “Seer no, you should not live with mine” The so called Hivites were Gibeonites and they deceived Israel and were not what they alleged. The Greek is translated “peradventure” but Joshua is very firm though the leaders bowed 9.14. The main point is **This angel did not ever want to deceive.** Had he been simply a “fellow servant he would have had a mark on the forehead of all servants in glory—he must have been an angel but he was involved with the prophets so he must have appeared in ancient time and been deeply aware of the development of the scriptures of the Old Testament.

68 DON'T SEAL THE BOOK-IT IS REVELATION 10-11 And he said to me “Do not seal [**KHATHAM**—close from access] the words of the prophecy of this book for the time is near”. *The Church age had begun and the age of persecution was virtually simultaneous running until Constantine in 425AD. The angel dealt in long eras but this statement vv10-12 is that of our Lord—the Alpha and Omega or Aleph and Tau. On earth the Son of Man did not reveal how near the Kingdom age was. In this statement there may be nothing more than advice to John that the last days had begun with the spread of the gospel of the kingdom and though the day of judgment lingered servants of the gospel age must keep this theme prominent because death and judgment were and continue to be real and no other age is to be expected before the rapture of the church and judgment of nations.* And he who does evil will repeat it and he who is foul will be polluted again and he who is righteous will act righteously again and he who is righteous will repeatedly be righteous.

69 INVITATION OF THE SPIRIT AND THE BRIDE 12-18 Behold I come immediately or once [**MEHADA**] and my reward [**AGAR** my hire or earnest money] is with me and I shall give [**MATHLA**] everyone exactly according to his work. *The “giving” our Lord speaks of is a down-payment. That is the Holy Spirit when linked with the call of God but in this context it is the first instalment of heavenly bliss through the millennial period.*

I am Aleph and Tau the first or earliest and the aftermath or last—the root and completion. *Notably the Greek MSS divide equally on putting this expression as “The first & last beginning ^ end” or the other way around. The terms **SHOLMA***

SHORIA AKHRIA QADMIA are easily misunderstood and their meanings transferred. *The designation is that of our Lord and was used in Chapter 1.* The blessings of those doing his commands shall be their absolute right to the Tree of Life and they will enter by the gates of the city.

And fornicators and murderers and deeply engaged worshippers of idols and the defiled and sorcerers and all mystics and perpetrators of lies will be outside. *“mystic seers” becomes “friends” in the Greek text.*

I Jesus have sent my angel to testify among you these things before the assemblies –I am(that I am **ANA ANA**) –the root and offspring [*sapling branch and propagated generation*] of David and with him the Bright Morning Star. *The Aramaic has this felicitous relationship to David set out remarkably even to John who leaned on the Lord’s breast at supper. We speak of the star of David and Christ takes that glory too as being of “the family of the star”(cf. 2 Samuel21.17)* And the Spirit and the bride are saying “come” [**THA**] and he who hears let him say “Come” [**THA**] and he who thirsts let him come [**NATA**] and let him take of the water of life without charge (cf. Isaiah55.1)-the “whosoever will” of the Greek is **DATXBA** the “whoever thirsts” **DATXBA** it appears a translator again has picked up the wrong word by a mistranslated letter.

70 SOLEMN WARNING ON THE INTEGRITY & AUTHORITY OF SCRIPTURE 18FF testify to everyone who hears the word of the prophecy of this writing(i.e. book)that whoever will transplant or set on it (i.e. add to it) God will plant or set on him the plagues written in this book.

19 And whoever would actively subtract or diminish [**BATXAR**]**this one prophecy** those things that are **written in this book** God will subtract his part from the Tree of life and from the Holy City.

VERBAL SIGNATURE OF THE LORD He said “Yes” when He testified these things **“I am coming soon** [**AGAL**–with mighty rolling waters or like judgment or like the flood] ...Come Lord Jesus [**THA MARIA YESHUA**]

21The grace of our Lord Yeshua Messiah be with all his holy ones-Amen
